Abstract

We describe the research dataset “Statistics of the banks’ profit and loss accounts 1993-2015”, using a structured metadata schema.¹ This document consists of three sections. In the first section, we describe the general properties of the dataset as a whole, such as its scope and coverage and the methods of data collection and data appraisal. The second section looks at the variable level, providing a variable overview table as well as variable detail tables for each variable. The last section looks at the definitions of key words.

Keywords: MFI, banks, profit, loss, return on equity

Metadata ID / Version: Statistics of the banks’ profit and loss accounts version 3

Copyright: Deutsche Bundesbank

¹The metadata model used is derived from DDI (“Data Documentation Initiative”, <http://www.ddialliance.org>).

1 Dataset Description

1.1 Overview and Identification

Title of Dataset:

Statistics of the banks' profit and loss accounts

German Title:

Gewinn- und Verlustrechnung der Banken

Abbreviation:

GuV

Dataset Abstract:

The statistics of the banks' profit and loss accounts are compiled using data on the income and expenses of German MFIs. In addition they include the calculation of balance sheet profits and losses, their main components, as well as ratios such as the return on equity. This involves the evaluation of the profits and losses calculated from the annual accounts which the banks must submit to the Bundesbank pursuant to section 26 of the German Banking Act (Kreditwesengesetz). As the annual accounts apply to the whole institution (but not to the group), the income and expenses of foreign branches are also covered. The values for the balance sheet capital, balance sheet total and other stock variables are not taken from the annual accounts but are calculated as annual averages on the basis of the monthly balance sheet statistics reported for the institution as a whole. Preliminary data is available after publication of aggregated results in the Bundesbanks' Monthly Bulletin in September and final data after publication of final aggregation in the internet in spring. The research data are available on a yearly basis from 1993 onwards for banks and for building and loan associations since 1999.

Data ID / Version:

Statistics of the banks' profit and loss accounts 1993-2015

1.2 Dataset Scope and Coverage

Legal Basis:

For the standard data set of the banks' profit and loss accounts statistic (GuV) only already published figures are accessed and so for them there is no need for a legal basis. However, the reporting rules of the Accounting Regulation for Credit Institutions (Verordnung über die Rechnungslegung der Kreditinstitute (RechKredV)) and of the German Commercial Code (Handelsgesetzbuch (HGB)) governing single-entity financial statements apply, particularly: German Commercial Code (HGB) § 242 Duty for statement

"(2) He (note: the merchant) has for the fiscal year-end to compile a contrasting juxtaposition of profits and losses of the financial year (profit and loss accounts)."

Regulation on the financial accounting of the credit institutions and the financial services institutions ("RechKredV") Section 4 Regulations concerning selected items of the profit and loss accounts (Forms 2 and 3)

- § 28 Interest received
- § 29 Interest paid
- § 30 Commissions received, commissions paid
- § 31 General administrative spending
- § 32 Special depreciation and value adjustments as well as appropriation to provisions, special income
- § 33 Special depreciation and value adjustments, special income

The results from the profit and loss accounts are based on the published annual reports of the individual institutions in accordance with the provisions set forth in the German Commercial Code (Handelsgesetzbuch or HGB) and the Regulation on the Accounting of Credit Institutions (Verordnung über die Rechnungslegung der Kreditinstitute, or RechKredV). They differ in terms of their conception, structure and definitions from the internationally customary IFRS (International Financial Reporting Standards) accounting standards for capital market-oriented banking groups, which means that - from a methodological viewpoint - the respective business results and certain balance sheet or individual profit and loss items are not comparable across the national and international accounting frameworks. For reasons of comparability within Germany, it is advisable to consider the individual accounts when analysing the financial performance. Using group accounts would make a meaningful analysis difficult as, first, many German banks are not part of a group, implying that their individual accounts drawn up in accordance with the German Commercial Code would still have to be used; second, not all group accounts are prepared according to international accounting standards. The published figures cover affiliations of foreign banks owned by a bank of the European Union whereas the research dataset excludes them due to legal restrictions.

Unit of Analysis:

Each line in the dataset corresponds to a report of characteristics of monetary financial institutions.

Time Periods:

1993 until 2015

Geographic Coverage:

Germany

Universe:

In principle, all institutions with reporting obligations to the monthly balance sheet statistics are the universe of the profit and loss accounts. These are the domestic banks (MFIs), with the status of a deposit-taking credit institution within the meaning of Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms. As the annual accounts apply to the whole institution (but not to the group), the income and expenses of foreign branches are also covered. ²

Historical Changes:

Since 1999

- profit and loss accounts for building and loan associations included
- "total assets" (variable gvK120) equal the balance sheet total from the monthly balance sheets statistics. Prior to 1999 "total assets" were calculated as balance sheet total plus liabilities arising from the endorsement of rediscounted bills, bills of exchange in circulation drawn by the credit institution, discounted and credited borrowers, and bills sent from the bill portfolio prior to expiry for collection.

²For the categories the reporting agents; in addition, the business volumes in question would have been expanded disproportionately.

1.3 Data Collection

Data Collection Mode:

Electronic or postal submission

Data Collectors:

Deutsche Bundesbank, Statistics Department (S), Monetary and financial statistics (S 1), Cross-sectional tasks and secondary statistics (S 14), Secondary statistics (S 14-3)

Collection Frequency:

Yearly

Sample Size:

All German banks (MFIs), with the status of a deposit-taking credit institution within the meaning of Regulation (EU) No 575/2013 on prudential requirements for credit institutions and investment firms, provide a monthly report of their balance sheet. Excluded are affiliations of foreign banks owned by a bank of the European Union, incomplete business year, banks in liquidation or similar.

There are banks with no profit and loss account for one or several years. Six banks have none for one year and one bank has none for two consecutive years though reporting to the monthly balance sheet statistics during all these months. There are additional eight banks with no profit and loss account during three up to nine consecutive years. During these years they do not report to the monthly balance sheet statistic either. For five out of these eight banks this may be due to the fact that the MFI definition changed in 1999 because of monetary union. Thus, in 1999 these banks were no MFIs anymore but became MFIs again some years later. There is also a shell company taking up regular work after some years.

Further, for a small number of institutes the financial year differs from the calendar year. The profit and loss accounts of these institutes are allocated to the year of the finalisation, i. e. if the financial year ends February 2016, the profit and loss account is allocated to calendar year 2016.

Response Rate:

100%

Supervision:

Within the first quarter of the financial year banks must submit their financial accounts including the profit and loss accounts to the Bundesbank pursuant to section 26 of the German Banking Act (Kreditwesengesetz). This is supervised by the banking supervision.

1.4 Aggregation Method

The Bundesbank publishes several tables for the banks' profit and loss accounts on its homepage

http://www.bundesbank.de/Navigation/EN/Statistics/Banks_and_other_financial_institutions/Banks/Statistics_of_the_banks_profit_and_loss_accounts/tables/tabellen.html

These figures are straightforward aggregates of the individual data with the exception of values for the balance sheet capital, balance sheet total and other stock variables. Minor discrepancies in

the figures for the breakdown by category of bank arise due to reclassification of banks. Variable names (see section 2) and tables are closely related. We report the titles of the tables together with the corresponding capital letters of the variable names:

- No 01: Overview of profitability of German banks by category of bank (S)
- No 02: Relative importance of key income and expense items by individual category of bank (K)
- No 03: Credit institutions' interest income (E)
- No 04: Cost/income ratio by category of bank (S300, S350)
- No 05: Breakdown of other and extraordinary income or charges (A, E)
- No 06: Return on equity by category of bank (EK11, EK15)
- No 07: Important components of the profit and loss accounts by category of bank (P)
- No 08: Credit institutions' profit and loss accounts (K)
- No 09: Credit institutions' expense items (A)
- No 10: Credit institutions' income items (E)

"Total assets" correspond to variable gvK120.

1.5 Data Appraisal

Quality Checks:

For data checking process a bottom-up approach is used to guarantee high quality of micro data. Note that individual sums are not reported but calculated.

Plausibility checks and outlier identification

- A lot of plausibility checks are performed on each report
- Comparison of the reporting values with the transmitted data of the previous month and the previous year
- Consistency checks
- Comparison checks between the "Statistics of the banks' profit and loss accounts" and BSI-statistics
- Outlier detection
- Completion check: List of agents which have not yet reported
- For the research dataset checking of the reconciliation formulae. No adjustment for rounding errors.

Data Editing:

There is no fixed schedule. MFIs have to submit their profit and loss accounts within the first quarter of the financial year.

1.6 Data Accessibility

Research Proposal Conditions:

A research proposal is checked for feasibility of the research project given the research data, i.e. the suitability of the data to answer the research questions raised by the proposal. The research project must be in the public interest, i.e. without commercial goals.

Institutional Access Conditions:

The researcher must be affiliated with a research institution that clearly has a scientific, non-commercial agenda.

Contact:

Deutsche Bundesbank; www.bundesbank.de; fdsz-data@bundesbank.de

Deposit Requirements:

The researcher must sign a confidentiality agreement. The data provider must be informed about any documents that are made available to the public that contain information derived from the provided data. The researcher is obliged to provide proof of proper data source citation through providing copies of the manuscripts and / or publications.

Citation Requirements:

For any study and any other document that are made available to the public that contain information derived from the provided data, the researcher is obliged to properly cite the data source as follows:

Stahl, Harald and Christine Rauth (2017), Statistics of the banks' profit and loss accounts 1993-2015, Data Report 2017-03 - Metadata Version 3, Deutsche Bundesbank Research Data and Service Centre (RDSC).

2 Variable Description

2.1 Variable Overview

Name	Label
gvBAID:	Random-identifier
YEAR:	Reference year (yyyy)
MONTH:	December (for matching with monthly data)
gvA000:	Total charges
gvA010:	Interest paid
gvA012:	Interest paid on deposits under savings and loan contracts (building and loan associations only)
gvA014:	Other interest paid (building and loan associations only)
gvA020:	Commissions paid
gvA021:	Commissions paid for concluding and brokering contracts (building and loan associations only)
gvA024:	Other commissions paid (building and loan associations only)
gvA030:	Net loss from the trading portfolio
gvA040:	Gross loss on transactions in goods and subsidiary transactions
gvA050:	Total general administrative spending
gvA052:	Staff costs
gvA053:	Wages and salaries
gvA054:	Total social security and other pension costs
gvA056:	Social security and other pension costs of which pensions
gvA058:	Other administrative spending
gvA060:	Value adjustments in respect of tangible and intangible assets
gvA066:	Value adjustments in respect of tangible and intangible assets, of which assets leased
gvA070:	Other operating charges
gvA080:	Depreciation and value adjustments in respect of loans and special securities and appropriation to provisions for contingent liabilities and commitments
gvA090:	Depreciation and value adjustments in respect of participating interest, shares in affiliated enterprises and securities treated as fixed assets
gvA100:	Charges incurred through loss assumption
gvA110:	Allocations to special reserves
gvA120:	Extraordinary charges
gvA130:	Taxes on income and earnings

Dimension: In thousand Euro
Calculation formula (if necessary): = -gvA010 + gvK011
Valid number of observations: 55,311

gvK011 : Total interest received, current income, profits received under profit pooling and profit transfer agreements

Detailed description and notes: Total interest received, current income, profits received under profit pooling and profit transfer agreements
Period of availability: 1993-2015
Source: Profit and loss accounts of banks ("GuV")
Variable type: Continuous
Dimension: In thousand Euro
Calculation formula (if necessary): = gvE012 + gvE014 + gvE020 + gvE030
Valid number of observations: 55,311

gvK012 : Interest paid component

Detailed description and notes: Interest paid component
Period of availability: 1993-2015
Source: Profit and loss accounts of banks ("GuV")
Variable type: Continuous
Dimension: In thousand Euro
Calculation formula (if necessary): = gvA010
Valid number of observations: 55,218

gvK015 : Net interest received in the narrower sense

Detailed description and notes: Net interest received in the narrower sense
Period of availability: 1993-2015
Source: Profit and loss accounts of banks ("GuV")
Variable type: Continuous
Dimension: In thousand Euro
Calculation formula (if necessary): = gvE010 - gvA010
Valid number of observations: 55,310

gvK020 : Net commissions received

Detailed description and notes:	Net commissions received
Period of availability:	1993-2015
Source:	Profit and loss accounts of banks ("GuV")
Variable type:	Continuous
Dimension:	In thousand Euro
Calculation formula (if nessessary):	= gvE040 - gvA020
Valid number of observations:	55,178

gvK021 : Commissions received component

Detailed description and notes:	Commissions received component
Period of availability:	1993-2015
Source:	Profit and loss accounts of banks ("GuV")
Variable type:	Continuous
Dimension:	In thousand Euro
Calculation formula (if nessessary):	= gvE040
Valid number of observations:	55,114

gvK022 : Commissions paid component

Detailed description and notes:	Commissions paid component
Period of availability:	1993-2015
Source:	Profit and loss accounts of banks ("GuV")
Variable type:	Continuous
Dimension:	In thousand Euro
Calculation formula (if nessessary):	= gvA020
Valid number of observations:	55,011

gvK025 : Gross earnings

Detailed description and notes:	Gross earnings
Period of availability:	1993-2015
Source:	Profit and loss accounts of banks ("GuV")
Variable type:	Continuous
Dimension:	In thousand Euro
Calculation formula (if nessessary):	= gvK010 + gvK020
Valid number of observations:	55,314

gvK050 : Total general administrative spending (including depreciation and value adjustments in respect of tangible and intangible assets)

Detailed description and notes:	Total general administrative spending (including depreciation and value adjustments in respect of tangible and intangible assets)

Variable type:	Continuous
Dimension:	In thousand Euro
Calculation formula (if necessary):	= gvG020 + gvG100
Valid number of observations:	39,522

gvK120 : Average annual balance sheet total

Detailed description and notes:	Since 1999 balance sheet total; on an annual average. Before 1999 balance sheet total plus liabilities arising from the endorsement of rediscounted bills, bills of exchange in circulation drawn by the credit institution, discounted and credited borrowers, and bills sent from the bill portfolio prior to expiry for collection; on an annual average. For a small number of institutes the financial year differs from the calendar year. In this case the average is taken over the months of the financial year.

3 Definitions

All items of the balance sheet statistics may be found in Special Statistical Publication 1 "Banking statistics, guidelines and customer classification".

A

Administrative expenditure See "General administrative expenditure" and "Other administrative expenditure".

Affiliated enterprises Pursuant to section 271 (2) of the Commercial Code (Handelsgesetzbuch), these constitute enterprises which, as parent enterprise or subsidiaries (see section 290 of the Commercial Code), are to be included in the group accounts of a parent enterprise according to the regulations for full consolidation (see sections 300 ff of the Commercial Code).

Average equity Annual average value on the basis of the monthly balance sheet statistics reported for the credit institution (balance sheet statistics main template item HV21 310 Capital plus balance sheet statistics main template item HV21 300 Fund for general banking risks). Not included are institutions that are in liquidation or accounting for a truncated financial year. Differing financial years are taken into account.

B

Banks majority-owned by foreign banks Breakdown of legally independent banks that are majority-owned by foreign banks included in the categories "Big banks", "Regional banks and other commercial banks", "Mortgage banks" and "Building and loan associations". See "Banking statistics guidelines" (Verzeichnis der rechtlich selbständigen Banken (MFIs) im Mehrbesitz ausländischer Banken

http://www.bundesbank.de/Redaktion/DE/Downloads/Veroeffentlichungen/Statistische_Sonderveroeffentlichungen/Statso_1/statso_1_14_verzeichnisse.pdf?__blob=publicationFile.

C

Categories of banks For definitions of the individual categories of banks, see "Banking statistics guidelines" (Verzeichnis der Banken (MFIs) in Deutschland nach Bankengruppen

http://www.bundesbank.de/Redaktion/DE/Downloads/Veroeffentlichungen/Statistische_Sonderveroeffentlichungen/Statso_1/statso_1_14_verzeichnisse.pdf?__blob=publicationFile.

Changes for statistical reasons These are changes within the individual banking categories owing to, for example, reclassifications or the discontinuation or admission of institutions, without this being based on a real change to the profitability of the respective banking category. These changes are excluded where indicated.

Cost-income ratio (CIR) Indicator of the efficiency of a credit institution. Ratio of administrative spending to gross earnings or operating income. The lower the CIR, the more efficiently the bank generates its earnings.

Credit institution as a whole The foreign branches of a given institution are included in the calculation.

Current income from long-term equity investments This also includes the dividends from the amounts paid up on cooperative society shares.

D

Differing fiscal years A period of twelve months is used for accounting purposes in a balance sheet, but the balance sheet date is not 31 December.

E

Employees, number of Number of full-time and part-time employees excluding those of the Deutsche Bundesbank. These include the following

- Commercial banks: employees in the private banking sector, including private mortgage banks.
- Credit cooperatives: only employees principally occupied in the banking industry.

- Building and loan associations: internal staff only.
- Special purpose banks: employees at public mortgage banks and at public special purpose banks.

Sources: data provided by associations and Bundesbank calculations.

Equity

Equity ratio Average equity as a percentage of average total assets, up to and including 1998 as a percentage of the average volume of business (balance sheet statistics main template item HV21 360).

Extraordinary results in the narrower sense Balance of reported extraordinary income less reported extraordinary charges.

F

Figures for the most recent date The figures for each of the most recent date are to be regarded as initially provisional.

G

General administrative expenditure Staff costs plus other administrative expenditure ("broad" definition).

Gross earnings The sum of net interest income and net commission income.

H

I

Income from operational banking business See "Operating income".

Insolvency Insolvency describes a natural or legal person's inability to pay. A distinction is made between corporate insolvency (an enterprise's inability to pay pursuant to section 14 of the Civil Code (Bürgerliches Gesetzbuch)) and consumer insolvency (a consumer's inability to pay pursuant to section 13 of the Civil Code).

Interbank transaction Transaction between credit institutions.

Interest income (total) Interest received from lending and money market transactions, debt securities and Debt Register claims plus current income and profits transferred under profit pooling, profit transfer agreements and partial profit transfer agreements.

Interest income in the narrower sense Interest received from lending and money market transactions, debt securities and Debt Register claims.

Interest margin Net interest income in relation to average total assets.

J

K

L

Leasing The basis for this is a leasing contract between a lessee and a lessor. The lessor provides the lessee with the leased good on a lease or rental basis in return for regular leasing payments.

Long-term equity investments Balance sheet statistics main template item HV11 100.

Long-term financial assets Pursuant to section 266 of the Commercial Code (Handelsgesetzbuch), shares in affiliated enterprises, loans to affiliated enterprises, other long-term equity investments, loans to other long-term investors and investees, long-term securities and other loans.

M

N

Net accumulated losses Net loss for the financial year plus withdrawals from reserves and participation rights capital less transfers to reserves and participation rights capital. See also "Withdrawals from or transfers to reserves and participation rights capital".

Net commission income Commissions received less commissions paid. Also known as non-interest business.

Net income or loss for the financial year before tax Operating result plus other and extraordinary result.

Net income from traditional interest business See "Net interest income in the narrower sense".

Net interest income (total) Interest income (total) less interest paid. Also known as interest business.

Net interest income in the narrower sense Interest received from lending and money market transactions, debt securities and Debt Register claims less interest paid.

Net operating income or charges Operating income less general administrative spending.

Net retained profits Net income for the financial year plus withdrawals from reserves and participation rights capital less transfers to reserves and participation rights capital. See also "Withdrawals from or transfers to reserves and participation rights capital".

O

Operating banking business All activities that serve the business purpose. These are interest and commission business (gross earnings), trading business and activities that have an effect on the other operating result.

Operating expenditure General administrative expenditure less staff costs, including write-downs of fixed assets (excluding write-downs on leased assets).

Operating income Net interest income, net commission income, result from the trading portfolio as well as other operating result.

Operating result Operating result before (re-)measurement plus (re-)measurement gains/ losses (excluding tangible fixed assets and long-term financial assets).

Operating result before (re-)measurement Partial operating result plus result from the trading portfolio as well as other operating result.

Operational banking business All activities which serve the business purpose. These are interest and commission business, proprietary trading and activities that have an effect on other operating income or charges.

Other administrative expenditure ("broad" definition) Other administrative spending ("narrow" definition) plus amortisation and write-downs of intangible fixed assets and depreciation and write-downs of tangible fixed assets, but excluding amortisation, depreciation and write-downs of leased assets.

Other administrative expenditure ("narrow" definition) All spending that is required for running the business but is not directly related to the actual business, eg auditing and consultancy costs, costs for premises and postage. "Other administrative spending" is defined in the narrower sense in the table "Credit institutions' charge and income items" only.

Other and extraordinary result (extraordinary result in the broader sense) Extraordinary result in the narrower sense plus reversals of write-downs of long-term equity investments, shares in affiliated enterprises and securities treated as fixed assets as well as income from the reversal of special reserves and income from loss transfers less write-downs of long-term equity investments, shares in affiliated enterprises and securities treated as fixed assets as well as charges from loss transfers, transfers to special reserves (up to 2010) and profits transferred under profit pooling, profit transfer agreements and partial profit transfer agreements.

P

Partial operating result Net interest income and net commission income less general administrative spending.

Participation certificate Securities based on participation rights to a company. Participation certificates are tradable but are not considered shares. The owner does not receive a voting right at annual general meetings; in return, profit participation usually exceeds the return on debt securities. Participation certificates are not regulated by law.

Participation right Instrument of corporate finance that takes an intermediate position between equity capital and debt capital.

Profit and loss account by category of bank The profit and loss account is the comparison of the profit and loss balances (income and expenditure). The annual result of an enterprise is

thus shown as either a surplus (profit) for the year or a deficit (loss) for the year. This applies to enterprises domiciled in Germany which conduct banking business pursuant to section 1 (1) of the Banking Act (Kreditwesengesetz) and are defined as monetary financial institutions (MFIs), excluding building and loan associations, insolvent institutions and institutions with a truncated financial year.

Q

R

(Re-)measurement gains/losses (excluding tangible fixed assets and long-term financial assets) Income from reversals of write-downs of receivables and specific securities as well as from the reversal of loan loss provisions less write-downs of receivables and specific securities as well as transfers to loan loss provisions.

Reserves, disclosed Pursuant to section 340 g of the Commercial Code (Handelsgesetzbuch), credit institutions are allowed, subject to reasonable commercial judgement, to accumulate disclosed reserves for bank-specific risk in the fund for general banking risks (balance sheet statistics main template item HV21 300).

Reserves, undisclosed Pursuant to section 340 f of the Commercial Code (Handelsgesetzbuch), credit institutions are allowed to accumulate additional undisclosed reserves for the total stock of claims and the securities in the liquidity reserve amounting to no more than 4% of these items. The difference between the book value and the actual market value of a balance sheet item (undervaluation of claims and assets or overvaluation of liabilities) that cannot be seen by the users of financial accounts. This is based on the legal valuation and accounting rules.

Result from the trading portfolio Balance of income and expenditure arising from business involving securities from the trading portfolio, financial instruments, foreign exchange assets and precious metals as well as the associated write-downs and reversals of write-downs and the accumulation of reserves for this business. Up to 2009, result from financial operations. According to the published annual reports, trading business is dominated by customer-initiated business.

Return Ratio of income (price gains and current income) from an investment to capital originally invested.

Return on equity (RoE) Net income for the financial year before or after tax as a percentage of average equity.

S

Shares and other variable-yield securities Balance sheet statistics main template item HV11 090.

Special reserves As the "tax dictates financial accounting" principle was repealed to the greatest possible extent with the introduction of the Act to Modernise Accounting Law (Bilanzrechtsmodernisierungsgesetz), the assumption of purely tax options in financial statements has not been permitted since the 2011 reporting year. It is therefore no longer required to set up a special reserves item in the annual accounts. Consequently, since the 2011 reporting year, it has not been permitted to newly set up or increase special reserves, with the result that the charges item "Transfers to special reserves" and the income item "Income from the reversal of special reserves" have been deleted. Special reserves existing at the time of the changeover to the Act to Modernise Accounting Law can either be reversed or retained.

Specific securities (within the framework of the items "Write-downs of receivables and specific securities as well as transfers to loan loss provisions" and "Income from reversals of write-downs of receivables and specific securities as well as from the reversal of loan loss provisions").

These specific securities are securities in the liquidity reserve, which include shares and bonds as well as other securities that are neither treated as fixed assets nor belong to the trading portfolio. Here it must be taken into account that these securities may be valued below the lower value of their cost or current market value (principle of the lower of cost or market).

T

Tangible fixed assets Pursuant to section 266 of the Commercial Code (Handelsgesetzbuch), land, land rights and buildings, including buildings on third-party land, technical equipment and machinery, other equipment, operating and office equipment, prepayments and assets under construction.

Taxes on income and earnings This describes profit-related taxes (corporation tax, possibly also investment income tax, trade earnings tax, as well as comparable foreign taxes). Partly including tax payments of legally dependent building and loan associations linked to the Landesbanken.

Total assets, average Annual average value on the basis of the monthly balance sheet statistics reported for the credit institution as a whole (balance sheet statistic main template item HV21 330). Not included are the foreign branches of savings banks and, as of 2004, the foreign branches of regional institutions of credit cooperatives as well as those institutions that are in liquidation or accounting for a truncated financial year. Differing financial years are taken into account.

Total assets

Trading result See also "Result from the trading portfolio".

Truncated financial year Period of less than twelve months in a balance sheet.

U

V

Valuation result (excluding tangible and financial fixed assets) Income from write-ups of claims and certain securities as well as releases from provisions in lending business less write-downs and value adjustments on claims and certain securities and transfers to provisions in the lending business.

W

Withdrawals from or transfers to reserves and participation rights capital This item includes not only withdrawals from and transfers to reserves (capital and revenue reserves) and participation rights capital but also retained profits and accumulated losses brought forward and withdrawals from and transfers to the fund for general banking risks.

X

Y

Yield See also "Return".
