Reproduction permitted only if source is stated.

The Statistical Supplement *Exchange rate statistics* is published each quarter in printed form. The Deutsche Bundesbank also publishes an updated monthly edition on the internet.

This Annex provides an English translation of the headings and explanatory notes to the data contained in the German original, which is the sole authoritative text.

The Statistical Supplement *Exchange rate statistics* is published by the Deutsche Bundesbank, Frankfurt am Main, by virtue of section 18 of the Bundesbank Act. It is available to interested parties free of charge.

Further statistical data, supplementing the Monthly Report, are to be found in the following supplements.

<i>Banking statistics</i>	monthly
<i>Capital market statistics</i>	monthly
<i>Balance of payments statistics</i>	monthly
<i>Seasonally adjusted business statistics</i>	monthly
<i>business statistics</i>	monthly

Selected updated statistics are also available on the internet. For a small fee to cover costs, a file which is updated monthly and contains approximately 40,000 time series published by the Bundesbank can also be obtained on magnetic tape cassette or CD-ROM from the Division for Statistical Information Systems and Mathematical Methods.

Selected current monthly averages of the euro reference exchange rates published by the European Central Bank can be obtained by telephoning +49 69 9566 8605.

Contents

I Exchange rates in the euro area and in Germany

1	Euro reference exchange rates of the European Central Bank and effective exchange rates of the euro	6
2	Exchange rates of major currencies (chart)	7
3	Effective exchange rate of the euro (chart)	7

VI Parities, central rates, EMUA relationships

1 Gold and US dollar parities between 1948 and 15 February 1973

Country Currency	Parity in relation to ¹						Calculated DM parity ²	
	Gold			US dollar				
	Effective from	CU 1 = grams of fine gold ...	Revaluation (+)/ devaluation (-) in %	Effective from	US\$ 1 = CU ...	Revaluation (+)/ devaluation (-) in %	Effective from	CU 100 = DM ...
Belgium		France		Netherlands		Sweden		
Denmark		Italy		Norway		Switzerland		
Germany		Japan		Austria		United States		
Finland		Canada		Portugal		United Kingdom		

Währungsumstellung = Currency conversion
Nur gültig bis ... = Effective only up to ...

Footnotes to Table VI.1

1 Gold parity agreed with the International Monetary Fund or fixed autonomously, US\$ parity (or central rate) or official US\$ rate. The parities agreed with the IMF ceased to apply with the entry into force of the Second Amendment of the IMF Articles of Agreement on 1 April 1978.

2 The DM parities were calculated on the basis of the US\$ relationships (DM currency since 21 June 1948).

3 Multiple exchange rate system (Belgium since 1951, France from 21 August 1971 to 20 March 1974, Italy from 22 January 1973 to 21 March 1974).

4 Owing to the revaluation of the Deutsche Mark.

5 Central rate; in Switzerland: middle rate. See also the footnotes to Table VI 2.

6 DM comparative value, calculated on the basis of the US\$ relationship in conjunction with the central rate US\$ 1 = DM 3.2225 (until 13 February 1973) or US\$ 1 = DM 2.9003 (from 14 February to 18 March 1973).

7 Reciprocal value of the conversion rate of DM 1 = US\$ 0.30 fixed according to the JEIA Operational Memorandum No 25, Amendment No 1.

8 With effect from 1 January 1963: Fmk 100 (old) = Fmk 1 (new).

9 Valid until 25 January 1948.

10 Under the system of rates used in France, the pro rata conversion of the US dollar on the basis of the official and the free rate yielded DM equivalents which fluctuated on average between DM 1.23 and DM 1.27 for Ffr 100.

11 Between 2 February 1948 and 19 September 1949 a multiple exchange rate system.

12 Against the official rate of 26 January 1948.

13 Official US\$ major rate plus 20% premium (Ffr 350 + Ffr 70 = Ffr 420); from June 1958 the premium was included in the rate.

14 Against the gold parity of 18 December 1946.

15 With effect from 1 January 1960: Ffr 100 = NF 1.

16 Average of the official, fluctuating US\$ rate (calculated on the basis of the monthly averages of the period in question). Between 1946 and 29 March 1960 a multiple exchange rate system.

17 No percentage calculation because there was no uniform official US\$ rate before 30 March 1960.

18 Owing to the depreciation of the Deutsche Mark.

19 For 1 currency unit.

20 Between 30 September 1950 (after the abandonment of the parity agreed with the IMF) and 1 May 1962, floating US\$ rate.

21 Against the parity of 19 September 1949.

22 Between 25 November 1949 and 2 May 1953 a multiple exchange rate system.

23 Foreign exchange rates (= middle rates of the Bank deutscher Länder) between 21 December 1949 and 23 June 1950: S 100 = DM 29.17; between 26 May 1954 and 31 December 1956: S 100 = DM 16.155.

24 Against the official rate of 26 October 1946.

25 According to the decision of the Swiss Federal Council of 27 September 1936, the Swiss National Bank was obliged to keep the gold value of the Swiss franc between 190 and 215 milligrams of fine gold. In the Swiss National Bank's statistics the gold parity was shown at Sfr 1 = 0.2032258 g fine gold.

26 According to publications of the Swiss National Bank.

27 In German-Swiss payment transactions, the following bilateral exchange rates were applied: US\$ 1 = Sfr 4.31 (until 30 November 1948); US\$ 1 = Sfr 4.305 (between 1 December 1948 and 18 September 1949); US\$ 1 = Sfr 4.30 (between 19 September and 12 October 1949).

28 According to the Federal Coinage Act of 17 December 1952 (which came into force on 20 April 1953) the franc corresponded to 63/310 (0.20322 ...) grams of fine gold.

29 In accordance with the decision of the Federal Council of 9 May 1971 the gold parity of the Sfr was changed to "47/216 (0.21759 ...) grams of fine gold ...".

30 The parity value was agreed with the IMF with effect from 8 May 1972.

31 The parity value was agreed with the IMF with effect from 18 October 1973.

* Floating of the exchange rate or temporary suspension of the buying rate of the central bank concerned:

Bfr between 23 August and 17 December 1971;

Dkr between 23 August and 17 December 1971 (buying rate suspended);

DM between 30 September and 24 October 1969 and from 10 May to 17 December 1971;

Lit between 23 August and 17 December 1971 and since 14 February 1973;

¥ between 28 August and 17 December 1971 and since 14 February 1973;

Can\$ since 1 June 1970;

Hfl between 10 May and 17 December 1971;

Nkr between 23 August and 17 December 1971 (buying rate suspended);

S between 24 August and 17 December 1971 (buying rate suspended);

Esc between 23 August and 17 December 1971 (buying rate suspended);

Skr between 23 August and 17 December 1971 (buying rate suspended);

Sfr since 23 January 1973 (between 11 September and 17 December 1971 buying rate suspended);

£ since 23 June 1972 (between 23 August and 17 December 1971 buying rate suspended).

o Since 15 August 1971 convertibility of the US dollar into gold or other reserve assets suspended.

v The change was made on account of the decision of the government of the United States to devalue the US dollar by 10%.

VI Parities, central rates, EMUA relationships

Freigabe des Wechselkurses gegenüber den Währungen derjenigen Länder, die nicht am Gruppenfloating teilnehmen = Floating of the exchange rate against the currencies of the countries not participating in the joint float.

Footnotes to Table VI.2

Special drawing rights, which were created as an international reserve asset in 1969, were equal in value to the US dollar (US\$ 1 = 0.888671 grams of fine gold) up to the Monetary Conference in Washington on 18 December 1971 as, in accordance with Article XXI (2) of the Articles of Agreement of the International Monetary Fund in the wording of 1969 (first amendment of the Articles of Agreement), the unit of value of special drawing rights corresponded to 0.888671 gram of fine gold. The introduction of central rates, which took place in accordance with the Washington Agreements (Smithsonian Agreement of 18 December 1971) on the basis of decision No 3463-(71/126) of 18 December 1971 by the IMF directors, which was amended by decision No 4083-(73/104) of 7 November 1973, made it possible for IMF member countries temporarily to fix new exchange rate relationships for their currencies. According to paragraph 2(b) of that decision, a central rate for a member currency could be reported in gold, in units of value of special drawing rights or in the currency of another member of the IMF. After the IMF parities had ceased to exist on 1 April 1978, the central rates reported to the IMF under the terms of the decision of 18 December 1971 were likewise of no practical significance, since with the deletion of Article IV 4(a) of the IMF Articles of Agreement in the former wording, they ceased to have any legal basis.

- Calculated in terms of the computed SDR parity before the Washington Agreements of December 1971.

1 Calculated on the basis of the relationship SDR 1 = CU ...

2 The following countries participated in the joint float: as from 19 March 1973 Belgium/Luxembourg, Denmark, Germany, France (until 18 January 1974 and between 10 July 1975 and 12 March 1976), the Netherlands, Norway (until 11 December 1978) and Sweden (until 26 August 1977). From 19 March 1973 the spot middle rates of those countries were kept within a fluctuation band of 2.25% (except Belgium/Luxembourg and the Netherlands, which had agreed on fluctuation margins of approx. 1.5% until 12 March 1976).

3 Because of the appreciation of the Deutsche Mark.

4 From 14 February 1973 (owing to the change in the central rate of the Deutsche Mark against the US dollar) the computed values are SDR 1 = DM 3.49877 and DM 1 = SDR 0.285814.

5 Central rate notified to the IMF by the Federal Government.

6 Effective until 18 March 1973; thereafter, the exchange rate of the Deutsche Mark floated against the currencies of those countries which did not participate in the joint float.

7 From 15 March 1976 France no longer participated in the joint float, as had already been the case between 21 January 1974 and 9 July 1975.

8 Computed relationship (not notified to the IMF as the central rate).

9 Sweden no longer participated in the joint float from 29 August 1977.

10 Switzerland was not a member of the IMF; the SDR relationship was computed on the basis of the middle rate of US\$ 1 = Sfr 3.84 published by the Swiss National Bank.

11 The parity value was agreed with the IMF with effect from 8 May 1972.

12 Central rate for US\$ 1 notified to the IMF by the Federal Government.

13 The parity value was agreed with the IMF with effect from 18 October 1973.

* In line with the resolution of the European Council of 5 December 1978 on the establishment of the European Monetary System, a European Currency Unit was the focal point of the EMS (for the value and composition of the ECU, see the Explanatory notes on pp 17-20). In the EMS, the unit was used as a reference variable for central rates, an indicator of exchange rate discrepancies, a denominator of assets and liabilities in the EMS, and a means of settlement between the EU central banks. — **1** And Luxembourg (currency: Luxembourg franc/fr), which formed a monetary union with Belgium. — **2** For the euro central rate in ERM II, see Excerpts from official announcements (pp 21-26). — **3** Central rate published in the Federal Gazette. — **4** Finland participated in the exchange rate mechanism of the EMS from 14 October 1996. — **5** The Greek drachma was added to the currency basket on 17 September 1984. Greece participated in the exchange rate mechanism of the EMS from 16 March 1998; up to that date, fictitious

central rates were applied. — **6** For 1 CU. — **7** Italy did not participate in the exchange rate mechanism of the EMS between 17 September 1992 and 24 November 1996; during that period fictitious central rates were applied. — **8** For 1,000 CU. — **9** Austria participated in the exchange rate mechanism of the EMS from 9 January 1995. — **10** The Portuguese escudo was added to the currency basket on 21 September 1989. Portugal participated in the exchange rate mechanism of the EMS from 6 April 1992; up to that date, fictitious central rates had been applied. — **11** Spain participated in the exchange rate mechanism of the EMS since 19 June 1989; the peseta had not been added to the currency basket until 21 September 1989. — **12** The United Kingdom participated in the exchange rate mechanism of the EMS from 8 October 1990 to 16 September 1992; the central rates specified before and after that period are of a fictitious nature.

Explanatory notes

Exchange rates in the euro area and in Germany

Euro reference rates of the European Central Bank and effective exchange rates of the euro

On 1 January 1999 eleven member states of the European Union adopted the euro as their single currency (see Excerpts from official announcements, pp 21-26). Greece and Slovenia became the twelfth and thirteenth members of the euro area on 1 January 2001 and 1 January 2007 respectively.

Since the introduction of the euro, there has been no autonomous foreign exchange market for the currencies replaced by the euro; the euro alone is quoted against non-euro-area currencies such as the US dollar, the yen etc. Since 4 January 1999 the ECB has published, each working day, reference rates for selected currencies. The reference rates are calculated on the basis of the daily concertation between central banks which takes place at 2.15 pm. Only one reference rate, ie the middle rate, is established by this procedure.

Initially the reference rates for 17 currencies were published. This reporting group was enlarged in three stages (October 2000, January 2001 and April 2005) and as of 1 January 2007 comprises a total of 34 currencies.

Euro/US dollar exchange rates during the day

The rates shown in the table are the buying rates predominating in the interbank market between 8.30 am and 4.30 pm; they have been compiled by the Deutsche Bundesbank from information disseminated by business news agencies. They are intended to provide a rough picture of the movement of the rates in the course of the day. It is not known whether deals were conducted at the quoted rates or, if they were, to what extent this occurred. In ascertaining the highest and lowest daily rates, account is taken of both the half-hourly recorded buying rates and all the data on rates communicated by the reporting banks.

The rates in the interbank market shown in this table are not to be confused with the euro reference exchange rate of the ECB for the day in question, which is listed as a memo item (see also Table I1).

ECU values of the European Monetary System (EMS)

The ECU was the currency unit of the European Monetary System, which entered into force on 13 March 1979. It was used as a unit of account in all areas of the Community from 1981 and succeeded the European Unit of Account (introduced in 1975), with which it was identical in definition and value at the time of transition. At the start of the third stage of European Economic and Monetary Union on 1 January 1999, the euro replaced the ECU as the accounting unit of the European Communities in the ratio of 1:1.

According to the arrangements relating to the EMS, the intention was for the weights of the currencies to be reviewed every five years and revised if necessary. With the first revision (17 September 1984) the Greek drachma was included in the basket; since the admission of the Spanish peseta and the Portuguese escudo with effect from 21 September 1989 (second revision), the currencies of all EC member states at that time were included in the basket. The periodic review of the weights of the currencies in the ECU definition was discontinued upon the entry into force of the Treaty on European Union on 1 November 1993; the composition of the ECU currency basket was not subject to further change. The currencies of the three countries which acceded to the European Union on 1 January 1995 (Austrian schilling, Swedish krona, Finnish markka) were therefore not included in the ECU basket.

The arithmetical value of the ECU in terms of a given currency was the total of the equivalents of the amounts in that currency indicated in the table below.

The European Commission based its arithmetical calculation of the ECU daily rates on the representative US dollar rates at 2.15 pm. These rates were communicated to it by the central banks of the countries represented in the ECU basket of currencies. On the basis of these rates, the equivalent of the ECU was computed first in US dollars and then in all EU currencies.

	Composition of the ECU basket		
	As from 13 Mar 1979	As from 17 Sep 1984	As from 21 Sep 1989
Deutsche Mark	0.828	0.719	0.6242
Pound sterling	0.0885	0.0878	0.08784
French franc	1.15	1.31	1.332
Italian lira	109.00	140.00	151.8
Dutch guilder	0.286	0.256	0.2198
Belgian franc	3.66	3.71	3.301
Luxembourg franc	0.14	0.14	0.130
Danish krone	0.217	0.219	0.1976
Irish pound	0.00759	0.00871	0.008552
Greek drachma	–	1.15	1.440
Spanish peseta	–	–	6.885
Portuguese escudo	–	–	1.393

These arithmetical daily rates of the ECU, expressed in terms of Community currencies (and some other currencies), were published regularly – to six significant figures – in the Official Journal of the European Communities (C series).

The ECU rates regularly quoted in the market for private ECU financial instruments could differ from these arithmetical rates because they reflected current supply and demand.

Overview of the currencies of the world

Currencies and exchange rates in particular countries

The rates listed in this table are in all cases the latest end-of-month rates known to us in a given month; in general they have been taken from reliable sources in the country in question. However, we do not know whether conversions were actually carried out at those rates in all cases.

In the case of multiple exchange rate systems, the types of rates are explained in footnotes. If no rates for the euro are available from a country, we have calculated comparative values at the exchange rates and relationships shown and marked them „W“ in the column „type of rate“.

The previous year average specified in this table was essentially calculated from all the rates or comparable figures available to us.

In addition to the generally accepted currency designation and its abbreviation, the three-character alphabetical ISO currency code (see also Table V) was developed by the International Organization for Standardization as ISO Standard 4217. This currency code is designed to enable uniformly abbreviated designations for currency-related values to be used in international financial transactions. This applies, *inter alia*, to all external payments under the SWIFT system (Society for Worldwide Interbank Financial Tele-communication). These abbreviations do not replace the official national short designations of the currencies.

Values of the special drawing right

Since 1 April 1978 the value of the special drawing right, which was previously also defined in terms of gold, has been defined only as the sum of the values of fixed amounts of a number of currencies. Since 1 July 1974 the International Monetary Fund has been using this „standard basket“ technique to determine the equivalent of an SDR unit in national currency.

Until the end of December 1980, the SDR basket comprised sixteen currencies. With effect from 1 January 1981, the number of currencies included in the basket was reduced from sixteen to five. With the introduction of the euro on 1 January 1999 this number was further reduced to four.

The composition of the currency basket as well as the weight and amount of the currency units in the basket are reviewed every five years. As a result of the latest review, conducted in 2005, since 1 January 2006 the SDR basket has contained the fixed currency amounts shown in column (a). They were fixed on 30 December 2005, on the basis of the average exchange rates in the

London spot exchange market in the fourth quarter of 2005, in such a way that they corresponded to the initial percentage weights listed in column (b) and generated the same SDR value on 30 December 2005 as did the basket until the end of 2005.

	(a)	(b)
US dollar	0.632	44
Euro	0.410	34
Yen	18.4	11
Pound sterling	0.0903	11

With the introduction of the euro as the single currency for initially eleven member states of the European Union, an adjustment of the selection criteria for the currencies of the SDR valuation basket was required. Hence the former criterion, whereby the currencies of the member states with the highest exports of goods and services were chosen, was extended in such a manner that it now also includes exports by monetary unions incorporating IMF members. In the case of a monetary union, exports of goods and services do not cover cross-border trade between the members of the monetary union.

Moreover, a second selection criterion was introduced so as to ensure that the currencies included in the basket are actually the commonest currencies used in international transactions. To that end, the IMF must state that a currency included in the basket is „freely usable“. A currency is deemed to be freely usable if, in the estimation of the Executive Board of the IMF, it is widely used in payments for international transactions and is heavily traded in the major foreign exchange markets.

The weights of the various SDR basket currencies continue to depend on the value of exports of goods and services, and the value of the reserve balances held in those currencies by other member states of the IMF in the five years preceding the year of review.

The above-mentioned currency components are converted into US dollars on the basis of the market rates on every business day. In principle, the middle rates between the buying and selling rates fixed at noon in the London spot exchange market are used as market rates. The sum of the US dollar equivalents of the

currency components yields the rate for the SDR in terms of the US dollar. Exchange rates for the SDR in terms of all other currencies are ascertained, using the rate for the SDR in terms of the US dollar, from the representative market exchange rates of these currencies for the US dollar. The representative rate for the Deutsche Mark was the official middle rate for the US dollar on the Frankfurt Exchange, whereas for the euro it is the reference rate of the European Central Bank.

The SDR is used by the IMF as a unit of account for its transactions and for all conversions into national currencies. In addition, the SDR is used by public and private bodies in Germany and abroad, *inter alia* as the „successor“ to those units of account which had hitherto been defined in terms of gold (eg gold francs).

Excerpts from official announcements

Council Regulation (EC) No 2866/98 of 31 December 1998 on the conversion rates between the euro and the currencies of the Member States adopting the euro (published in the Official Journal of the European Communities L 359 of 31 December 1998)

The Council of the European Union,

Having regard to the Treaty establishing the European Community ¹, and in particular Article 109j(4), first sentence thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Central Bank,

(1) Whereas according to Article 109j(4) of the Treaty, the third stage of Economic and Monetary Union shall start on 1 January 1999; whereas the Council, meeting in the composition of Heads of State or Government, has confirmed on 3 May 1998 that Belgium, Germany, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland fulfil the necessary conditions for the adoption of a single currency on 1 January 1999;

(2) Whereas according to Council Regulation (EC) No 974/98 of 3 May 1998 on the introduction of the euro, the euro shall be the currency of the Member States which adopt the single currency as from 1 January 1999; whereas the introduction of the euro requires the adoption of the conversion rates at which the euro will be substituted for the national currencies and at which rates the euro will be divided into national currency units; whereas the conversion rates in Article 1 are the conversion rates referred to in the third indent of Article 1 of Regulation (EC) No 974/98;

(3) Whereas according to Council Regulation (EC) No 1103/97 of 17 June 1997 on certain provisions relating to the introduction of the euro, every reference to the ECU in a legal instrument shall be replaced by a reference to the euro at a rate of one euro to one ECU;

¹ Editorial note: Maastricht Treaty in the wording of 7 February 1992.

whereas Article 109l(4), second sentence, of the Treaty, provides that the adoption of the conversion rates shall by itself not modify the external value of the ECU; whereas this is ensured by adopting as the conversion rates, the exchange rates against the ECU of the currencies of the Member States adopting the euro, as calculated by the Commission on 31 December 1998 according to the established procedure for the calculation of the daily official ECU rates;

(4) Whereas the Ministers of the Member States adopting the euro as their single currency, the Governors of the Central Banks of these Member States, the Commission and the European Monetary Institute/the European Central Bank, have issued two Communiqués on the determination and on the adoption of the irrevocable conversion rates for the euro dated 3 May 1998 and 26 September 1998, respectively;

(5) Whereas Regulation (EC) No 1103/97 stipulates that the conversion rates shall be adopted as one euro expressed in terms of each of the national currencies of the Member States adopting the euro; whereas in order to ensure a high degree of accuracy, these rates will be adopted with six significant figures and no inverse rates nor bilateral rates between the currencies of the Member States adopting the euro will be defined,

has adopted this Regulation:

Article 1

The irrevocably fixed conversion rates between the euro and the currencies of the Member States adopting the euro are:

1 euro	=	40.3399	Belgian francs
	=	1.95583	German marks
	=	166.386	Spanish pesetas
	=	6.55957	French francs
	=	0.787564	Irish pounds
	=	1,936.27	Italian lire
	=	40.3399	Luxembourg francs
	=	2.20371	Dutch guilders
	=	13.7603	Austrian schillings
	=	200.482	Portuguese escudos
	=	5.94573	Finnish marks.

Article 2

This Regulation shall enter into force on 1 January 1999.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Communiqué of the European Union of 31 December 1998

The ministers of the euro-area Member States of the European Community, the European Central Bank and the ministers and the central bank governors of Denmark and Greece have decided, following a common procedure involving the European Commission and after consultation of the Monetary Committee, to fix the central rates of the participant currencies in the Exchange Rate Mechanism which comes into operation on 1 January 1999.

The euro central rates of the Danish krone and Greek drachma are as follows (units of national currency per euro):

Danish krone	7.46038
Greek drachma	353.109

A fluctuation band of plus or minus 2.25% will be observed around the central rate for the Danish krone. The standard fluctuation band of plus or minus 15% will be observed around the central rate for the Greek drachma. The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the central banks of Denmark and Greece in time for the opening of foreign exchange markets on 4 January 1999.

Council Regulation (EC) No 1478/2000 of 19 June 2000 amending Regulation (EC) No 2866/98 on the conversion rates between the euro and the currencies of the Member States adopting the euro (published in the Official Journal of the European Communities L 167 of 7 July 2000)

The Council of the European Union,

Having regard to the Treaty establishing the European Community ¹, and in particular Article 123(5) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Central Bank,

Whereas:

(1) Council Regulation (EC) No 2866/98 of 31 December 1998 on the conversion rates between the euro and the currencies of the Member States adopting the euro determines the conversion rates as from 1 January 1999 pursuant to Council Regulation (EC) No 974/98 of 3 May 1998 on the introduction of the euro.

(2) Council Decision 98/317/EC of 3 May 1998 in accordance with Article 121(4) of the Treaty stipulated that Greece did not fulfil the necessary conditions for the adoption of the single currency.

(3) Pursuant to Council Decision 2000/427/EC of 19 June 2000 in accordance with Article 122(2) of the Treaty on the adoption by Greece of the single currency on 1 January 2001 Greece now fulfils the necessary conditions, and the derogation of Greece should be abrogated with effect from 1 January 2001.

(4) The introduction of the euro in Greece requires the adoption of the conversion rate between the euro and the drachma,

has adopted this Regulation:

Article 1

In the list of conversion rates in Article 1 of Regulation (EC) No 2866/98, the following shall be inserted

between the rates of the German mark and the Spanish peseta:

„= 340.750 Greek drachma“

Article 2

This Regulation shall enter into force on 1 January 2001.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

**Communiqué of the European Union
of 27 June 2004**

At the request of the Estonian authorities, the ministers of the euro area Member States of the European Union, the President of the European Central Bank and the ministers and the central bank governors of Denmark and Estonia have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee, to include the Estonian kroon in the Exchange Rate Mechanism II (ERM II).

The central rate of the Estonian kroon is set at

1 euro = 15.6466 kroon.

The standard fluctuation band of plus or minus 15% will be observed around the central rate of the kroon.

...

The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the Bank of Estonia, in time for the opening of the foreign exchange markets on 28 June 2004.

**Communiqué of the European Union
of 27 June 2004**

At the request of the Lithuanian authorities, the ministers of the euro area Member States of the

¹ Editorial note: Amsterdam Treaty in the wording of 2 October 1997.

European Union, the President of the European Central Bank and the ministers and the central bank governors of Denmark and Lithuania have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee, to include the Lithuanian litas in the Exchange Rate Mechanism II (ERM II).

The central rate of the Lithuanian litas is set at

1 euro = 3.45280 litas.

The standard fluctuation band of plus or minus 15% will be observed around the central rate of the litas.

...

The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the Bank of Lithuania, in time for the opening of the foreign exchange markets on 28 June 2004.

Communiqué of the European Union of 27 June 2004

At the request of the Slovenian authorities, the ministers of the euro area Member States of the European Union, the President of the European Central Bank and the ministers and the central bank governors of Denmark and Slovenia have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee, to include the Slovenian tolar in the Exchange Rate Mechanism II (ERM II).

The central rate of the Slovenian tolar is set at

1 euro = 239.640 tolar.

The standard fluctuation band of plus or minus 15% will be observed around the central rate of the tolar.

...

The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the Bank of Slovenia, in time for the opening of the foreign exchange markets on 28 June 2004.

Communiqué of the European Union of 29 April 2005

At the request of the Cypriot authorities, the ministers of the euro area Member States of the European Union, the President of the European Central Bank and the ministers and the central bank governors of Denmark, Estonia, Lithuania, Slovenia and Cyprus have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee, to include the Cyprus pound in the Exchange Rate Mechanism II (ERM II).

The central rate of the Cyprus pound is set at

1 euro = 0.585274 pound.

The standard fluctuation band of plus or minus 15 percent will be observed around the central rate of the pound.

...

The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the Central Bank of Cyprus, in time for the opening of the foreign exchange markets on 2 May 2005.

Communiqué of the European Union of 29 April 2005

At the request of the Latvian authorities, the ministers of the euro area Member States of the European Union, the President of the European Central Bank and the ministers and the central bank governors of Denmark, Estonia, Lithuania, Slovenia and Latvia have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee,

to include the Latvian lats in the Exchange Rate Mechanism II (ERM II).

The central rate of the Latvian lats is set at

1 euro = 0.702804 lats.

The standard fluctuation band of plus or minus 15 percent will be observed around the central rate of the lats.

In line with the existing exchange rate regime, the Latvian authorities have declared that they will maintain the exchange rate of the lats at the central rate against the euro with a fluctuation band of plus or minus 1 percent as a unilateral commitment, thus placing no additional obligations on the ECB.

...

The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the Central Bank of Latvia, in time for the opening of the foreign exchange markets on 2 May 2005.

Communiqué of the European Union of 29 April 2005

At the request of the Maltese authorities, the ministers of the euro area Member States of the European Union, the President of the European Central Bank and the ministers and the central bank governors of Denmark, Estonia, Lithuania, Slovenia and Malta have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee, to include the Maltese lira in the Exchange Rate Mechanism II (ERM II).

The central rate of the Maltese lira is set at

1 euro = 0.429300 lira.

The standard fluctuation band of plus or minus 15 percent will be observed around the central rate of the lira.

Upon entry into the mechanism, the Maltese lira will be re-pegged to the euro from the current basket arrangement. Moreover, the Maltese authorities have declared that they will maintain the exchange rate of the Maltese lira at the central rate against the euro as a unilateral commitment, thus placing no additional obligations on the ECB.

...

The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the Central Bank of Malta, in time for the opening of the foreign exchange markets on 2 May 2005.

Communiqué of the European Union of 25 November 2005

At the request of the Slovak authorities, the ministers of the euro area Member States of the European Union, the President of the European Central Bank and the ministers and the central bank governors of Cyprus, Denmark, Estonia, Latvia, Lithuania, Malta, Slovenia and Slovakia have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee, to include the Slovak koruna in the Exchange Rate Mechanism II (ERM II).

The central rate of the Slovak koruna is set at

1 euro = 38.4550 koruna.

The standard fluctuation band of plus or minus 15 percent will be observed around the central rate of the koruna.

...

The compulsory intervention points in the exchange rate mechanism will be communicated by the ECB and the National Bank of Slovakia, in time for the opening of the foreign exchange markets on 28 November 2005.

**Council Regulation (EC) No 1086/2006 of
11 July 2006 amending Regulation (EC)
No 2866/98 on the conversion rates
between the euro and the currencies of
the Member States adopting the euro
(published in the Official Journal of the
European Communities L 195 of
15 July 2006)**

The Council of the European Union,

Having regard to the Treaty establishing the European Community ¹, and in particular Article 123(5) thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Central Bank,

Whereas:

(1) Council Regulation (EC) No 2866/98 of 31 December 1998 on the conversion rates between the euro and the currencies of the Member States adopting the euro determines the conversion rates as from 1 January 1999.

(2) According to Article 4 of the 2003 Act of Accession, Slovenia is a Member State with a derogation as defined in Article 122 of the Treaty.

(3) Pursuant to Council Decision 2006/495/EC of 11 July 2006 in accordance with Article 122(2) of the Treaty on the adoption by Slovenia of the single currency on January 2007, Slovenia fulfils the necessary conditions for the adoption of the single currency and the derogation of Slovenia is abrogated with effect from 1 January 2007.

(4) The introduction of the euro in Slovenia requires the adoption of the conversion rate between the euro and the tolar. This conversion rate should be set at 239.640 Slovenian tolsars to 1 euro, which corresponds to the current central rate of the tolar in the exchange rate mechanism (ERM II).

(5) Regulation (EC) No 2866/98 should therefore be amended accordingly,

has adopted this regulation:

Article 1

In the list of conversion rates in Article 1 of Regulation (EC) No 2866/98, the following shall be inserted between the rates of the Portuguese escudo and the Finnish mark:

„= 239.640 Slovenian tolsars“.

Article 2

This Regulation shall enter into force on 1 January 2007.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

**Communiqué of the European Union
of 16 March 2007**

At the request of the Slovak authorities, the ministers of the euro-area Member States of the European Community, the European Central Bank and the ministers and the central bank governors of Cyprus, Denmark, Estonia, Latvia, Lithuania, Malta and Slovakia have decided, by mutual agreement, following a common procedure involving the European Commission and after consultation of the Economic and Financial Committee, to adapt the central rate of the Slovak koruna in the Exchange Rate Mechanism II (ERM II).

The central rate of the Slovak koruna has been revalued by 8 ½ percent. The new central rate of the koruna is

1 euro = 35.4424 koruna.

The standard fluctuation band of plus or minus 15 percent continues to be observed around the central rate of the Slovak koruna.

...

The compulsory intervention points in the exchange-rate mechanism will be communicated by the ECB and the National Bank of Slovakia, in time for the opening of the foreign exchange markets on 19 March 2007.

¹ Editorial note: Amsterdam Treaty in the wording of 2 October 1997.

Explanatory notes on individual countries

Equatorial Guinea

Along with Cameroon, the Central African Republic, Chad, the Republic of the Congo and Gabon, Equatorial Guinea is served by the "Banque des Etats de L'Afrique Centrale" (Bank of the Central African States), whose CFA Franc (F.CFA = Franc de la Coopération Financière en Afrique Centrale) is legal tender only in the aforementioned countries. Until the end of 1998, the CFA franc was pegged to the French franc (FF 1 = 100 CFA francs); since 1999, it has been pegged to the euro based on the irrevocable conversion rate of the French franc to the euro.

Bangladesh

Units of account for larger amounts: 1 lakh (in digits: 1,00,000) = 100,000 taka; 1 crore (in digits: 1,00,00,000) = 100 lakh = 10,00,00,000 taka.

Belarus

In Germany, the traditional German word "Weissrussland" (literally, "White Russia", or Byelorussia) is used instead of Belarus.

Benin

Benin, Burkina Faso, Côte d'Ivoire, Guinea-Bissau, Mali, Niger, Senegal and Togo all belong to the West African Monetary Union (Union Monétaire Ouest Africaine). The responsible monetary authority is the "Banque Centrale des Etats de l'Afrique de l'Ouest", whose CFA franc (F.CFA = Franc de la Communauté Financière Africaine) is legal tender only in the aforementioned countries. Until the end of 1998, the CFA franc was pegged to the French franc (FF 1 = 100 CFA francs); since 1999, it has been pegged to the euro based on the irrevocable conversion rate of the French franc to the euro.

Bhutan

The Indian rupee is also legal tender alongside the Bhutanese ngultrum (convertible at par).

Brunei Darussalam

Under an agreement between Brunei Darussalam and Singapore, the Singapore dollar is also accepted as legal tender at a rate of S\$ 1 = BR\$ 1.

Cook Islands

The New Zealand dollar is also legal tender alongside the Cook Islands dollar (convertible at par).

El Salvador

The US dollar is likewise legal tender alongside the El Salvador colón.

Ghana

With effect from 1 July 2007, a currency changeover took place to the ratio of 10,000 cedi = 1 Ghanaian cedi (GH¢). One cedi is divided into 100 pesewas (Gp). The (old) cedi will remain legal tender in this ratio until the end of December 2007.

The ISO code for the Ghanaian cedi is GHS.

India

Units of account for larger amounts are as follows:
1 lakh (in digits: 1,00,000) = 100,000 rupees; 1 crore (in digits: 1,00,00,000) = 100 lakh = 10,000,000 rupees.

Iran, Islamic Republic of

The term "toman" (an old Persian currency) is also used to denote 10 rials.

Kenya

The term "Kenya pound" is a unit of account equivalent to 20 Kenya shillings.

Kiribati

The Australian dollar (convertible at par) is also legal tender alongside some of Kiribati's own coins.

Comoros

The Comorian franc was pegged to the French franc (FF 1 = FC 75 or FC 1 = FF 0.0133) until the end of 1998; since 1999, it has been pegged to the euro based on the French franc's irrevocable conversion rate to the euro.

Cuba

Alongside the Cuban peso, which is used by residents to purchase their basic needs, there is a "convertible peso" (CUC), which is used particularly for purchasing non-subsidised goods and for spending on travel.

Since the CUC is supposed to be of the same value as the CUP, the rates that apply to the CUP also apply to the CUC.

The euro is also accepted as legal tender in some tourist centres.

Lesotho

The rand is also legal tender alongside the loti.

Macau

The Hong Kong dollar, to which the pataca is pegged at a rate of HK\$ 100 = 103 patacas, is in circulation as a common currency alongside the pataca.

Macedonia

On 8 April 1993, Macedonia was admitted to the United Nations under the temporary designation "**Former Yugoslav Republic of Macedonia**"; this designation is in use within the European Union (and therefore also Germany) until further notice.

Myanmar

Parallel exchange rates which vary considerably from the official rate also exist; however, we have no information on these rates.

Namibia

The rand is likewise legal tender alongside the Namibia dollar.

New Caledonia

CFP was originally the abbreviation for "Colonies Françaises du Pacifique" and is still used as a currency symbol (in connection with the franc). The CFP franc was pegged to the French franc (FF 1 = 18.1818 CFP francs or 1 CFP franc = FF 0.055) until the end of 1998; since 1999, it has been pegged to the euro based on the irrevocable conversion rate of the French franc to the euro.

Netherlands Antilles

Bonaire, Curaçao, Saba, Sint Eustatius and Sint Maarten (the southern part) constitute the Netherlands Antilles.

Panama

The US dollar is legal tender alongside the balboa, which is in circulation exclusively in coin form.

São Tomé and Príncipe

The unit of account for 1,000 dobras is 1 conto.

Zimbabwe

Alongside the official published rates other rates exist which deviate substantially from the official rates; however, we do not have any details.

Singapore

Under an agreement between Singapore and Brunei Darussalam, the Brunei dollar (convertible at par) is also accepted as legal tender.

Somalia

No official exchange rates have been available for the Somali shilling for some time now.

Sudan

The Sudanese pound has been in circulation since 10 January 2007, when it was introduced at a rate of 100 Sudanese dinar = 1 Sudanese pound. Until 30 June 2007 rates were listed in Sudanese dinar.

Syrian Arab Republic

In addition to the exchange rates shown, there is still a rate of US\$ 1 = SE 11.20/11.25 (buy/sell) for a small number of debt service payments. This is due to bilateral payment agreements.

Hungary

With effect from 4 June 2003, Hungary reset its central parity to the euro to € 1 = Ft 282.36, with a fluctuation band of plus or minus 15%. Hungary is therefore in compliance with the standard fluctuation band of ERM II.

Venezuela

The Banco Central de Venezuela has announced that a currency changeover will take place on 1 January 2008 in the ratio of 1,000 bolívares = 1 bolívar fuerte (Bs.F.). One bolívar fuerte is divided into 100 céntimos.

United Arab Emirates

The United Arab Emirates include Abu Dhabi, Ajman, Dubai, Fujairah, Ras al Khaimah, Sharjah and Umm al Qaiwain.

United Kingdom

In Scotland and Northern Ireland, a small volume of banknotes issued by commercial banks in these territories is in circulation alongside notes issued by the Bank of England.

* Siehe Erläuterungen (Seite 65). — 1 Berechnungen der EZB anhand der gewogenen Durchschnitte der Euro-Wechselkurse gegenüber den Währungen folgender Länder: Australien, Bulgarien, China, Dänemark, Estland, Hongkong, Japan, Kanada, Lettland, Litauen, Malta, Norwegen, Polen, Rumänien, Schweden, Schweiz, Singapur, Slowakei, Tschechische Republik, Ungarn, Vereinigtes Königreich, Vereinigte Staaten Zypern und Republik

Korea (Südkorea). Die dabei verwendeten Gewichte beruhen auf dem Handel mit gewerblichen Erzeugnissen von 1999 bis 2001 und spiegeln auch Drittmarkteffekte wider. Soweit die Verbraucherpreisindizes noch nicht vorlagen, sind Schätzungen angegeben. Zur Erläuterung der Methode siehe: EZB, Monatsbericht, September 2004, Seite 78 ff. sowie Occasional Paper Nr. 2 der EZB, das von der Website der EZB (www.ecb.int) heruntergeladen werden kann.

Quelle: IWF, Washington. — **1** Die Währung eines anderen Landes ist als alleiniges gesetzliches Zahlungsmittel in Umlauf, oder das Mitglied gehört einer Währungsunion an, in der die Mitglieder der Union das gleiche gesetzliche Zahlungsmittel verwenden. — **2** Ostkaribische Währungsunion. — **3** Das Land praktiziert ein vom IWF unterstütztes oder sonstiges geldpolitisches Programm. — **4** Westafrikanische Wirtschafts- und Währungsunion. — **5** Zentralafrikanische Wirtschafts- und Währungsgemeinschaft. — **6** Währungssystem, aus dessen gesetzlicher Grundlage sich die Verpflichtung ergibt, Inlandswährung gegen eine bestimmte Auslands-währung zu einem festen Wechselkurs umzutauschen, wobei die Emissionsstelle Beschränkungen unterliegt, um die Erfüllung ihrer gesetzlichen Verpflichtung zu gewährleisten. — **7** Das Land hat mehr als einen nominalen Anker, an dem die Geldpolitik ausgerichtet werden kann. — **8** Das Land bindet seine Währung (formell oder de facto) mit einem festen Kurs an eine große Währung oder einen Währungskorb, wobei der Wechselkurs

innerhalb einer engen Bandbreite von weniger als 1% um einen Leitkurs schwankt. — **9** Der Wert der Währung wird innerhalb von Schwankungsbreiten eines formell oder de facto festen Kurses gehalten; dabei darf die Währung um mehr als 1% um einen Leitkurs schwanken. — **10** Die Währung wird regelmäßig in kleinen Schritten mit einem festen, vorher angekündigten Prozentsatz oder als Reaktion auf Veränderungen ausgewählter quantitativer Indikatoren angepasst. — **11** Die Währungsbehörde beeinflusst die Wechselkursbewegungen durch aktive Interventionen am Devisenmarkt, ohne im Voraus einen Pfad für den Wechselkurs festzulegen und anzukündigen oder sich zur Einhaltung eines solchen Pfades zu verpflichten. — **12** Der Wechselkurs wird vom Markt bestimmt, wobei etwaige Devisenmarktinventionen die Veränderungsrate dämpfen und übermäßige Wechselkursschwankungen verhindern, jedoch kein bestimmtes Kursniveau herbeiführen sollen. — **13** Abweichung von der Quelle; siehe Auszüge aus amtlichen Bekanntmachungen (Seite 71 ff.).

Austritt aus dem Europäischen Wechselkursverbund						

* Die EWRE war die gemeinsame Bezuggröße im Europäischen Wechselkursverbund. Der Europäische Fonds für währungspolitische Zusammenarbeit (EFWZ) führte seine Konten in EWRE. — 1 Bis zum 31.3.78 waren die EWRE-Relationen wertgleich mit den bis dahin geltenden SZR-Leitkursen

(siehe auch Tabelle VI.2). — 2 Errechnet unter Zugrundelegung der Relationen für 1 EWRE. — 3 Aufgrund der Aufwertung der D-Mark. — 4 Von der Bundesregierung bekannt gegebener Leitkurs.

* Nach der Entschließung des Europäischen Rates vom 5.12.78 über die Errichtung des Europäischen Währungssystems war eine Europäische Währungseinheit zentraler Punkt des EWS (zu Wert und Zusammensetzung der ECU siehe Erläuterungen zu Tabelle I.7). Die Einheit wurde im EWS außer als Bezugsgröße für die Leitkurse auch als Indikator für Wechselkursabweichungen, Rechengröße für Forderungen und Verbindlichkeiten im EWS sowie als Instrument für den Saldenausgleich zwischen den EU-Zentralbanken verwendet. — 1 So wie Luxemburg (Währung: luxemburgischer Franc / Ifr), das mit Belgien eine Währungsassoziation bildete. — 2 Euro-Leitkurs im WKM II siehe Tabelle I.5. — 3 Im Bundesanzeiger veröffentlichter Leitkurs. — 4 Finnland nahm seit 14.10.96 am Wechselkursmechanismus des EWS teil. — 5 Die Drachme wurde am 17.9.84 in den Währungskorb aufgenommen. Am Wechselkursmechanismus des EWS nahm Griechenland seit 16.3.98 teil; bis dahin bestanden fiktive Leitkurse. — 6 Für 1 WE. — 7 Italien nahm vom 17.9.92 bis 24.11.96 nicht am Wechselkursmechanismus des EWS teil; für diese Zeit bestanden fiktive Leitkurse. — 8 Für 1 000 WE. — 9 Österreich nahm seit 9.1.95 am Wechselkursmechanismus des EWS teil. — 10 Der Escudo wurde am 21.9.89 in den Währungskorb aufgenommen. Am Wechselkursmechanismus des EWS nahm Portugal seit 6.4.92 teil; bis dahin bestanden fiktive Leitkurse. — 11 Spanien nahm seit 19.6.89 am Wechselkursmechanismus des EWS teil; die Aufnahme in den Währungskorb erfolgte erst am 21.9.89. — 12 Das Vereinigte Königreich nahm vom 8.10.90 bis 16.9.92 am Wechselkursmechanismus des EWS teil; die zuvor und danach angegebenen Leitkurse hatten fiktiven Charakter.

selkursmechanismus des EWS nahm Griechenland seit 16.3.98 teil; bis dahin bestanden fiktive Leitkurse. — 6 Für 1 WE. — 7 Italien nahm vom 17.9.92 bis 24.11.96 nicht am Wechselkursmechanismus des EWS teil; für diese Zeit bestanden fiktive Leitkurse. — 8 Für 1 000 WE. — 9 Österreich nahm seit 9.1.95 am Wechselkursmechanismus des EWS teil. — 10 Der Escudo wurde am 21.9.89 in den Währungskorb aufgenommen. Am Wechselkursmechanismus des EWS nahm Portugal seit 6.4.92 teil; bis dahin bestanden fiktive Leitkurse. — 11 Spanien nahm seit 19.6.89 am Wechselkursmechanismus des EWS teil; die Aufnahme in den Währungskorb erfolgte erst am 21.9.89. — 12 Das Vereinigte Königreich nahm vom 8.10.90 bis 16.9.92 am Wechselkursmechanismus des EWS teil; die zuvor und danach angegebenen Leitkurse hatten fiktiven Charakter.
