Questionnaire 15

Waves 33 – 34 - 35

October - November – December 2023

Deutsche Bundesbank
Research Centre

Contact: unternehmensbefragung@bundesbank.de

1 Notes

a General coding

For all questions, the following codes apply.

Code	Output
-9999	Dropout: The respondent did not answer the question due to dropout.
-9998	No answer: The respondent clicked "No answer" instead of answering the question.
-9997	Don't know: The respondent clicked "Don't know" instead of answering the question.
-9996	Does not apply: The respondent clicked "Does not apply to my enterprise" instead of answering the question.
-6666	Does not apply: The question or response option was not shown to the respondent due to filters or prior item non-response.
-5555	Recoded by BBk: A coding or data error that was recoded by the Bundesbank.

b Legend for question header

Each question header includes information on the name of the question, whether it was part of the core questionnaire ("Core"), included for a specific project ("Pro"), or part of descriptive statistics ("Descript"), the broad topic and the variable name(s).

Legend	Question name	Question source	Topic	Variable name
Example 1	003	Core	Perceived problems	percprob_[a-j]
Example 2	103	Pro	Supply chains qualitative	suppchains_[a-b]

c Question filtering and coding

Coding details, filters and conditional redirects are highlighted using *Courier*. If questions are posed to all respondents, this is not explicitly stated. For filtered questions, the filter is listed at the top and refers to the question name, e.g.:

103 | Pro | Supply chain problems domestic or foreign | suppchain_[a-b]

Input filter: 001_d = 6 | 7 | 8 | 9 | 10

d Variable names

Variable **names** are indicated in the top right corner. If the question has multiple items, the items are indicated by underscores and a **letter**. Enumeration letters correspond to variable names. The **coding** of the variables is numeric and indicates the scale.

X01 | Core | Perceptions qualitative | percmacro_[a-i]

QUESTION: Please consider the period from **end-June 2022** to **end-June 2023**. How did the following metrics develop in your enterprise during this period?

Note: Please select one answer for each row.

- 1 = Decreased significantly
- 2 = Decreased
- 3 = Stayed roughly the same
- 4 = Increased
- 5 = Increased significantly
- 9996 = Does not apply to my enterprise

- a = Access to intermediate inputs <i>:
- b = Current trade receivables:
- c = Current trade payables:
- d = Short-term liquidity:
- e = Need for credit financing:
- f = Access to financing sources <i>:
- g = Inventories (stock of intermediate products and finished goods):
- h = Sales <i>:
- i = Expenditure on energy and fuels:

3 Introduction

000 | Core | OPENING 1

Welcome to the survey of firms conducted on behalf of the Deutsche Bundesbank.

Important information concerning the survey:

- To navigate through the survey, please only use the “Continue” button at the bottom of the screen. Please do **not** use the buttons in your browser or the back button on your phone or tablet.
- To ensure that the individual questions are displayed correctly, use an up-to-date browser such as Google Chrome, Mozilla Firefox (version 12 or later), Apple Safari (version 6 or later), Opera (version 20 or later) or Microsoft Edge. Using older browsers, particularly Internet Explorer 8 and earlier, can result in limited functionality in terms of design and ease of use.
- During the survey, there is **no** option to go back to questions previously answered. If you would like an overview of the full questionnaire, please send a request to unternehmensbefragung@bundesbank.de.
- If you have any questions, problems or comments about navigating this questionnaire, you can contact the forsa support team from Monday to Friday between 09:00 and 18:00 on the free telephone number 0800 3677202 or by email at bundesbank-unternehmensbefragung@forsa.de. If you have any questions or comments on the content of the survey, please contact the Bundesbank’s project team by telephone at +49 (0)69 9566 32080 or by email at unternehmensbefragung@bundesbank.de.

000 | Core | OPENING 2

Thank you for taking the time to complete this survey. The Deutsche Bundesbank would like to know how the economic situation in your firm has changed over time and what you are currently expecting for the future.

The survey will take roughly 15 to 20 minutes to complete. Your answers will be treated confidentially. It would be a great help to us if you answer the questions as carefully as possible.

000 | Core | OPENING 3

The Deutsche Bundesbank attaches particular importance to protecting your data. All of the information you provide will be treated confidentially in accordance with legal provisions. Only a few employees at a Bundesbank data trustee will see your survey data after pseudonymisation. Bundesbank employees will receive your data only after they have been further anonymised. Published results are completely anonymous and therefore cannot be traced back to your enterprise. Your answers will help the Deutsche Bundesbank to fulfil its statutory tasks (to learn more about the Bundesbank’s tasks, please click [here](#)).

Only effectively anonymised data can be passed on to research institutions for research purposes that are related to the Bundesbank’s tasks. You will find more information, details of how to contact the project team, and selected results of the survey on the Bundesbank’s website: <https://www.bundesbank.de/en/bundesbank/research/survey-on-firms>.

Your participation in our survey is of course voluntary. By participating in this survey, you give your consent for your data to be stored, processed and shared for the purposes of the Deutsche Bundesbank fulfilling its tasks. You may withdraw your consent at any time. However, withdrawal of your consent shall not affect the lawfulness of any processing that took place on the basis of this declaration of consent before it was withdrawn.

Input filter: `newcomer = █`

During the survey, there will be two further requests for consent to link the survey data to business statistics and for another survey (if you would like to know more about this, please click [here](#)). Of course, you can choose not to consent to the above, though we would ask you to take part in the survey and fill in the other information. Your data will help the Deutsche Bundesbank fulfil its statutory tasks.

4 Questions

X01 Core Perceptions qualitative percmacro_[a-i]
"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".
After the term "Access to intermediate inputs", an info box <i> with the following text is shown: "If access to intermediate inputs has deteriorated, please state "decreased" or "decreased significantly"."
After the term "Access to financing sources", an info box <i> with the following text is shown: "Access to financing sources describes the possibility of using various forms of external financing to finance your business activities, e.g. bank loans, trade credits, equity, debt securities or other financing instruments. If the possibilities of using these financing sources have deteriorated, please state "decreased" or "decreased significantly"."
After the term "Sales", an info box <i> with the following text is shown: "Please consider your sales in the third quarter of 2023 (July to September 2023) and compare them with your sales in the third quarter of 2022 (July to September 2022). In place of sales growth, banks/credit institutions should consider the development of their gross interest and commission income and their net trading income. Insurers should consider the development of their gross premiums written."
QUESTION: Please consider the period from end-September 2022 to end-September 2023 . How did the following metrics develop in your enterprise during this period?
<i>Note: Please select one answer for each row.</i>
<p>1 = Decreased significantly 2 = Decreased 3 = Stayed roughly the same 4 = Increased 5 = Increased significantly -9996 = Does not apply to my enterprise</p>
<p>a = Access to intermediate inputs <i>: b = Current trade receivables: c = Current trade payables: d = Short-term liquidity: e = Need for credit financing: f = Access to financing sources <i>: g = Inventories (stock of intermediate products and finished goods): h = Sales <i>: i = Expenditure on energy and fuels:</p>
X02 Core Expectations qualitative expmacro_[a-i]
"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".
After the term "Access to intermediate inputs", an info box <i> with the following text is shown: "If you expect access to intermediate inputs to deteriorate, please state "decrease" or "decrease significantly"."
After the term "Access to financing sources", an info box <i> with the following text is shown: "Access to financing sources describes the possibility of using various forms of external financing to finance your business activities, e.g. bank loans, trade credits, equity, debt securities or other financing instruments. If you expect the possibilities of using these financing sources to deteriorate, please state "decrease" or "decrease significantly"."
After the term "Sales", an info box <i> with the following text is shown: "Please consider your expected sales in the third quarter of 2024 (July to September 2024) and compare them with your sales in the third quarter of 2023 (July to September 2023). In place of sales growth, banks/credit institutions should consider the development of their gross interest and commission income and their net trading income. Insurers should consider the development of their gross premiums written."
Question: How do you expect the following metrics to develop in your enterprise from end-September 2023 to end-September 2024 ?

Note: Please select one answer for each row.

- 1 = Decrease significantly
- 2 = Decrease
- 3 = Stay roughly the same
- 4 = Increase
- 5 = Increase significantly
- 9996 = Does not apply to my enterprise

- a = Access to intermediate inputs <i>:
- b = Current trade receivables:
- c = Current trade payables:
- d = Short-term liquidity:
- e = Need for credit financing:
- f = Access to financing sources <i>:
- g = Inventories (stock of intermediate products and finished goods):
- h = Sales <i>:
- i = Expenditure on energy and fuels:

--- | SPLIT SAMPLE 1 - OVERVIEW | RANDOMISATION 1

Randomisation dummy: *draterandom1*

The dummy *draterandom1* splits the sample into three groups of roughly equal size (1, 2, 3). This split is linked to the randomisation in waves 30-32. Firms that were assigned to one of the three randomisation groups in waves 30-32 (irrespective of whether they responded or not in the end) should be assigned to the same group this time again.

draterandom1 = (firms that were in group in waves 30-32 + one-third of newcomers)

draterandom1 = (firms that were in group in waves 30-32 + one-third of newcomers)

draterandom1 = (firms that were in group in waves 30-32 + one-third of newcomers)

X04A | Core | Development key rate probabilistic | keyrateprob_[a-r]

Input filter: *draterandom1* = OR OR

"Don't know" and "No answer" shown as soft prompts if no value is entered and the participant clicked "Continue".

If no values are entered, the following error message is shown: "Please enter a value in the fields or select one of the possible responses below."

Values between 0 and 100 are supported. No decimals are allowed.

The programming of the question requires the sum of the ten variables to be 100. The current sum of all entered points is shown to the respondent when answering the question. If the sum is not equal to 100, the following error message is shown: "Please note that your answers to all scenarios have to add up to 100."

Fields that were left empty should be assigned 0 after moving to the next question.

After the term "key interest rate of the European Central Bank", an info box <i> with the following text is shown: "The European Central Bank sets three different key interest rates. The one currently referred to is the deposit facility rate at which commercial banks can deposit their money with the ECB in the short term."

QUESTION: We would now like to ask you some questions about macroeconomic developments. In your opinion, how likely is it that the key interest rate of the European Central Bank (ECB) <i> will fluctuate within the following bands at the **end of September 2024**?

Note: The aim of this question is to determine how likely you think it is that something specific will happen in the future. You can rate the likelihood on a scale from 0 to 100, with 0 meaning you are certain that an event will not happen and 100 meaning that you are absolutely certain it will happen. Use values between the two extremes to moderate the strength of your opinion. Please note that your answers to the categories have to add up to 100. You can also leave fields empty; these will be saved as a 0.

r = Below 0.00%:

f = Between 0.00% and 0.50%:

g = Between 0.51% and 1.00%:	[Input field]
h = Between 1.01% and 1.50%:	[Input field]
i = Between 1.51% and 2.00%:	[Input field]
j = Between 2.01% and 2.50%:	[Input field]
k = Between 2.51% and 3.00%:	[Input field]
m = Between 3.01% and 3.50%:	[Input field]
n = Between 3.51% and 4.00%:	[Input field]
o = Between 4.01% and 4.50%:	[Input field]
p = Between 4.51% and 5.00%:	[Input field]
q = Above 5.00%:	[Input field]

--- | **SAMPLE SPLIT 1 – End** | ---

X04B | Core | Inflation expectations quantitative | inflexpoint

"Don't know" and "No answer" shown as soft prompts if no value is entered and the participant clicked "Continue".

Values between -100.0 and 999.0 are supported. If an invalid number is entered, the following error message is shown: "Please enter a value between -100.0 and 999.0. Only one decimal place is permitted."

After the term "rate of inflation", an info box <i> with the following text is shown: "Inflation is the percentage increase in the general price level. It is mostly measured using the consumer price index. A decrease in the price level is generally described as deflation."

QUESTION: What do you expect the rate of inflation <i> to be over the next **twelve months**?

Note: If you expect the price level to increase, please enter a positive percentage value. If you expect the price level to decrease, please enter a negative percentage value. Please enter a value with a maximum of one decimal place.

[Input field] percent

--- | **SPLIT SAMPLE 2 – OVERVIEW | RANDOMISATION 2**

Randomisation dummy: `dsalesrandom1`

The dummy `dsalesrandom1` splits the sample into two groups of roughly equal size. Firms that were assigned to one of the two randomisation groups in the waves listed below (irrespective of whether they responded or not in the end) should be assigned to the same group again this time.

`dsalesrandom1 = 1` (firms that were in group 1 in waves 30-32 + one-half of newcomers)
`dsalesrandom1 = 0` (firms that were in group 0 in waves 30-32 + one-half of newcomers)

	<code>dsalesrandom1 = 1</code>	<code>dsalesrandom1 = 0</code>
<code>inflexpoint_3y</code>	X	
<code>inflexpoint_5y</code>		X
<code>sales</code>		X

811A | Pro 6 | Inflation expectations quantitative – 3 years | inflexpoint_3y

Input filter: `dsalesrandom1 = 1`

"Don't know" and "No answer" shown as soft prompts if no value is entered and the participant clicked "Continue".

Values between -100.0 and 999.0 are supported. If an invalid number is entered, the following error message is shown: "Please enter a value between -100.0 and 999.0. Only one decimal place is permitted."

After the term "rate of inflation", an info box <i> with the following text is shown: "Inflation is the percentage increase in the general price level. It is mostly measured using the consumer price index. A decrease in the price level is generally described as deflation."

QUESTION: What do you expect the rate of inflation <i> to be on average over the next **three years**?

Note: If you expect the price level to increase on average, please enter a positive percentage value. If you expect the price level to decrease on average, please enter a negative percentage value. Please enter a value with a maximum of one decimal place.

[Input field] percent

811B | Pro 6 | Inflation expectations quantitative – 5 years | inflexpoint_5y

Input filter: `dsalesrandom1 =`

"Don't know" and "No answer" shown as soft prompts if no value is entered and the participant clicked "Continue".

Values between -100.0 and 999.0 are supported. If an invalid number is entered, the following error message is shown: "Please enter a value between -100.0 and 999.0. Only one decimal place is permitted."

After the term "rate of inflation", an info box <i> with the following text is shown: "Inflation is the percentage increase in the general price level. It is mostly measured using the consumer price index. A decrease in the price level is generally described as deflation."

QUESTION: What do you expect the rate of inflation <i> to be on average over the next **five years**?

Note: If you expect the price level to increase on average, please enter a positive percentage value. If you expect the price level to decrease on average, please enter a negative percentage value. Please enter a value with a maximum of one decimal place.

[Input field] percent

X05A | Core | Sales past quarter quantitative | salespast

Input filter: `dsalesrandom1 =`

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

If an invalid number (negative or including a comma or period) is entered, the following error message is shown: "Please enter a positive value, without a comma or period (possible input values are 0 to 999999999)."

After the term "sales", an info box <i> with the following text is shown: "In place of sales, banks/credit institutions should state their gross interest and commission income and their net trading income, whilst insurers should enter their gross premiums written."

QUESTION: We would now like to ask you some more questions about your enterprise. What were your enterprise's sales <i> in the **third quarter of 2023** (July to September 2023)?

Note: Please enter an amount in full thousands of euro. If your sales were €123,500, please enter only 123 in the field. If your sales were €1,234,500, please enter only 1234 in the field.

Sales (excluding VAT): [Input field],000 euro

X05B | Core | Sales comparable quarter prediction | salesfuture_[a-e]

Input filter: `dsalesrandom1 =`

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

Values between -100.0 and 999.9 are supported. If an invalid number is entered, the following error message is shown: "Please enter a value between -100.0 and 999.9."

Firms are expected to provide at least one number. Firms may not be forced to provide all five values.

When programming the questionnaire, please be mindful of scenarios in which firms provide, for instance, only three values (e.g. 1, 2, 4, NA, NA; or 1, NA, 2, NA, 3) or only two values (e.g. 1, NA, NA, NA, 2; or NA, 1, 2, NA, NA).

After the term "sales", an info box <i> with the following text is shown: "In place of sales, banks/credit institutions should state their gross interest and commission income and their net trading income, whilst insurers should enter their gross premiums written."

QUESTION: What changes in your sales <i> do you consider possible from the **third quarter of 2023** (July to September 2023) to the **third quarter of 2024** (July to September 2024)?

Please indicate what percentage change in your sales you would expect in the following scenarios.

Note: If you expect sales to increase, please enter a positive percentage value. If you expect sales to decrease, please enter a negative percentage value.

- a = The **lowest** potential percentage change would be: [Input field] percent
- b = A **low** potential percentage change would be: [Input field] percent
- c = A **medium** potential percentage change would be: [Input field] percent
- d = A **high** potential percentage change would be: [Input field] percent
- e = The **highest** potential percentage change would be: [Input field] percent

X05C | Core | Sales comparable quarter probabilistic | salesprob_[a-e]

Input filter: `dsalesrandom1 = []`

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

Values between 0 and 100 are supported. No decimals are allowed.

The programming of the question requires the sum of the five variables to be 100. The current sum of all entered points is shown to the respondent when answering the question. If the sum is not equal to 100, the following error message is shown: "Please note that your answers to all scenarios have to add up to 100."

Only those fields should be active for which a value has been provided in `sales_future_[a-e]`. If only one value has been provided, this question should not be shown.

After the term "sales", an info box <i> with the following text is shown: "In place of sales, banks/credit institutions should state their gross interest and commission income and their net trading income, whilst insurers should enter their gross premiums written."

QUESTION: How likely do you think it is that the individual scenarios for the change in your sales <i> from the **third quarter of 2023** (July to September 2023) to the **third quarter of 2024** (July to September 2024) will materialise?

Note: The aim of this question is to determine how likely you think it is that something specific will happen in the future. You can rate the likelihood on a scale from 0 to 100, with 0 meaning you are certain that an event will not happen and 100 meaning that you are absolutely certain it will happen. Use values between the two extremes to moderate the strength of your opinion. Please note that your answers to all scenarios have to add up to 100.

- a = The likelihood of a change of around `{salesfuture[a]}`% is: [Input field]
- b = The likelihood of a change of around `{salesfuture[b]}`% is: [Input field]
- c = The likelihood of a change of around `{salesfuture[c]}`% is: [Input field]
- d = The likelihood of a change of around `{salesfuture[d]}`% is: [Input field]
- e = The likelihood of a change of around `{salesfuture[e]}`% is: [Input field]

X06A | Core | Price change past year quantitative | pricepast

Input filter: `dsalesrandom1 = []` OR `[]`

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

Values between -100.0 and 999.9 are supported. Only one decimal place is permitted. If an invalid number is entered, the following error message is shown: "Please enter a value between -100.0 and 999.9. Only one decimal place is permitted."

Input filter: `dsalesrandom1 = []`

QUESTION: We would now like to ask you some more questions about your enterprise. Please consider the period from **end-September 2022** to **end-September 2023**. Please enter the average percentage change in the prices charged for your products and services in this period.

Input filter: `dsalesrandom1 = []`

QUESTION: Please consider the period from **end-September 2022** to **end-September 2023**. Please enter the average percentage change in the prices charged for your products and services in this period.

Note: If prices increased, please enter a positive percentage value. If prices decreased, please enter a negative percentage value. Please enter a value with a maximum of one decimal place.

[Input field] percent

--- | SAMPLE SPLIT 2 – END | ---

X06B | Core | Price change next year quantitative | pricefuture

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

Values between -100.0 and 999.9 are supported. Only one decimal place is permitted. If an invalid number is entered, the following error message is shown: "Please enter a value between -100.0 and 999.9. Only one decimal place is permitted."

QUESTION: Please consider the period from **end-September 2023** to **end-September 2024**. What average percentage change in the prices charged for your products and services do you expect in this period?

Note: If you expect prices to increase, please enter a positive percentage value. If you expect prices to decrease, please enter a negative percentage value. Please enter a value with a maximum of one decimal place.

[Input field] percent

X06C | Core | Price change uncertainty | priceunc

Input filter: a number provided in *pricefuture* (Question X06B)

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

Input filter: *pricefuture* > 0

QUESTION: How certain are you that the prices charged for your products and services will increase by around {*pricefuture*}% on average in the period from **end-September 2023** to **end-September 2024**?

- 1 = Very uncertain
- 2 = Rather uncertain
- 3 = Neither certain nor uncertain
- 4 = Rather certain
- 5 = Very certain

Input filter: *pricefuture* < 0

QUESTION: How certain are you that the prices charged for your products and services will decrease by around {*pricefuture*}% on average in the period from **end-September 2023** to **end-September 2024**?

- 1 = Very uncertain
- 2 = Rather uncertain
- 3 = Neither certain nor uncertain
- 4 = Rather certain
- 5 = Very certain

Input filter: *pricefuture* = 0

QUESTION: How certain are you that the prices charged for your products and services will remain roughly the same on average in the period from **end-September 2023** to **end-September 2024**?

- a = Very uncertain
- b = Rather uncertain
- c = Neither certain nor uncertain
- d = Rather certain
- e = Very certain

X09A | BiQ Core | Employment past quarter | emplpast_[a, b]

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

No negative values are permitted. No decimals are allowed. If an invalid number is entered, the following error message is shown: "Please enter a valid value, without a comma or period (possible input values are 0 to 9999999)."

QUESTION: How many employees did your enterprise have at the end of the **third quarter of 2022** (end-September 2022) and at the end of the **third quarter of 2023** (end-September 2023)?

Note: Please consider all employees, including those working part-time.

a = Number of employees at end-September 2022: [Input field]

b = Number of employees at end-September 2023: [Input field]

X09B | BiQ Core | Employment comparable quarter prediction | emplfuture

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

No negative values are permitted. No decimals are allowed. If an invalid number is entered, the following error message is shown: "Please enter a valid value, without a comma or period (possible input values are 0 to 9999999)."

QUESTION: How many employees do you expect your enterprise to have at the end of the **third quarter of 2024** (end-September 2024)?

Note: Please consider all employees, including those working part-time.

Number of employees at end-September 2024: [Input field]

X09C | BiQ Core | Employment uncertainty | emplunc

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

QUESTION: How certain are you that the number of employees at your enterprise will be around **{emplfuture}** at the end of the **third quarter of 2024** (end-September 2024)?

Note: Please select one answer.

1 = Very uncertain

2 = Rather uncertain

3 = Neither certain nor uncertain

4 = Rather certain

5 = Very certain

X07A | Core | Microfinance credit negotiations | creduse1

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

After the term "government-sponsored loans", an info box <i> with the following explanation is shown: "Government-sponsored loans include, for example, public sector support in the form of guarantees, reduced interest rates or funding grants."

QUESTION: In the **third quarter of 2023** (July to September 2023), did your enterprise negotiate with one or more banks with a view to taking out a loan or establishing a credit line?

Note: This does not include any government-sponsored loans <i>.

- 1 = Yes
- 2 = No

X07B | Core | Microfinance negotiations result | creduse2_[a-f]

Input filter: *creduse1* = 1

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

QUESTION: What was the outcome of these negotiations?

Note: Please select all answers that apply.

- 0 = Category not selected
- 1 = Category selected

- a = Loan/credit line was approved for the desired amount at the desired conditions (interest, collateral, etc.)
- b = Loan/credit line was approved for the desired amount but at less favourable conditions (interest, collateral, etc.)
- c = Loan/credit line was approved for a smaller amount but at the desired conditions (interest, collateral, etc.)
- d = Loan/credit line was approved for a smaller amount and at less favourable conditions (interest, collateral, etc.)
- e = No decision has yet been made regarding the loan application
- f = Loan negotiations were concluded without a deal

X08A | Core | Financing sources past | financingpast_[a-g]

"Don't know" and "No answer" shown as soft prompts if no response selected and the participant clicked "Continue".

After the term "government-sponsored loans", an info box <i> with the following explanation is shown: "Government-sponsored loans include, for example, public sector support in the form of guarantees, reduced interest rates or funding grants."

QUESTION: Has your enterprise used the following financing sources over the past **three months**?

Note: Please select one answer for each row. Please consider the last three full calendar months when answering this question.

- 1 = Yes
- 2 = No, but used prior to this period
- 3 = No, never used to date

- a = Retained earnings:
- b = Bank loans (excluding overdrafts):
- c = Overdrafts:

QUESTION: Due to their potential impact on the economy and on the stability of prices and the financial system, the topics of climate change and climate policy have taken on increasing importance, including for the Bundesbank. To what extent do you agree or disagree with the following statements regarding climate change?

Note: Please select one answer for each row.

- 1 = Strongly disagree
- 2 = Generally disagree
- 3 = Somewhat agree
- 4 = Generally agree
- 5 = Strongly agree

- a = People will find new technical solutions to avoid serious repercussions of climate change:
- b = Without further efforts towards climate protection, climate change will have serious global repercussions in the coming decades:
- c = Climate change is caused by people:
- d = The global climate protection measures currently planned will harm the global economy more than they benefit the climate:
- e = The German climate protection measures currently planned will harm the German economy more than they benefit the climate:

5 Descriptive questions

D01 | Descript | Firm characteristics implicit | firmid

Input filter: `newcomer = 1`

QUESTION: The information collected needs to be categorised in order to complete it. When evaluating the survey data, the Bundesbank would therefore like to merge this information with data it has on record to fulfil its tasks and which are kept in a separate database of enterprises at its premises in Frankfurt am Main, Germany. If you do not consent to this, the Bundesbank will rely on you to categorise this information yourself by means of additional questions. As you can see there, these data relate to the size, balance sheet, legal form, economic sector and other structural details of your enterprise. Your consent is required to merge these data with the survey data.

The data records will be merged at a data trustee – the Deutsche Bundesbank’s Data Service Centre (DSC). The security of your data is ensured when this information is subsequently processed at the DSC. Your consent is of course voluntary. You may withdraw it at any time. However, withdrawing your consent shall not affect the lawfulness of any processing that has taken place on the basis of this declaration of consent before it was withdrawn.

1 = Yes, consent granted.

2 = No, consent not granted.

3 = I am not authorised to grant consent.

D02 | Descript | Firm characteristics explicit employment | firmemploy

7 Willingness to participate

P01 | Core | Panel participation | panel

Input filter: *newcomer* =

QUESTION: In order to find out how your enterprise is dealing with the current economic challenges and to see how your enterprise develops over the next few years, we would, going forward, like to invite you to complete additional surveys at intervals of three months. We will need to keep your contact details on file so that we can get in touch with you about the new surveys. To do this, we require your consent under the German Data Protection Act (*Datenschutzgesetz*).

Your contact details will be kept separately from the questionnaire and solely for the purpose of this further survey. They will never be traced back to the answers you have provided. Your information will remain anonymous as described above and your data will never be passed on to third parties. Once the final survey has been completed, your contact details will be permanently deleted. The data protection statement on the processing of personal contact details, as well as contact details for the data protection officer and information about the rights of data subjects can be found in the general data protection notice at <https://www.bundesbank.de/en/bundesbank/research/survey-on-firms/survey-on-the-expectations-of-firms-855892>

We would be very grateful if you decided to continue participating in our research project. Of course, this is also voluntary and you can withdraw your consent at any time.

I agree that my address may be kept on file for further surveys:

1 = Yes

2 = No

P02 | Core | Contact | contact

Input filter: *newcomer* =

QUESTION: To make it easier for us to contact you about new surveys, please provide us with an email address that we can use to contact your enterprise. This email address will not be used for any other purpose and will be treated with the same level of confidentiality as your other contact details.

Note: Please type your email address in the text field.
