Sources: Federal Employment Agency, Federal Statistical Office and Bundesbank calculations. * Up to 1991 West Germany, from 1992 Germany. 1 1961, 1970 and 1987 result of the census. 2 Domestic concept, 1950 to 1967 Bundesbank estimate. 3 Until 1958 excluding Saarland. 4 Up to and including December 2004 month-end figures, as of January 2005 mid-month figures. 5 As of January 2004, unemployed persons excluding participants in aptitude testing and training measures. Early 2005: rise influenced by inclusion of recipients of social assistance who are able to work. From May 2009, unemployed excluding persons newly registered on the books of private employment agencies. 6 Unemployed as a percentage of the civilian labour force; up to and including 1968 as a percentage of employed labour force. See also Table I.3 Unemployment rate according to ILO definition. 7 Until 1952 excluding Berlin. From 1992 to 2006 excluding short-time working in construction and agriculture. From 2007, in accordance with Section 96 of the Social Security Code III (SGB III) excluding recipients of seasonal short-time working benefits and restructuring short-time working benefits (short-time workers in rescue companies). From 2009, values revised following change in data recording methodology. 8 From January 2000, excluding government-assisted forms of employment and seasonal jobs, including jobs located abroad.

V. Labour market and wages

2. Labour income*
