

# User creation and administration in ECMS

Version 1.1

Version	Date	Description of changes			
1.0	12.03.2024		Initial version		
1.1	11.07.2024	1 2 3	effectiveness of role changes screens for 4 Eyes principle User administration		

## Content

- 1. General information
- 2. User creation (2/4 eyes principle)
  - 2.1 Allocation of DNs
- 3. User administration

## 1. General information on user creation in ECMS

This document shall provide guidance on how to create and edit a user in ECMS.

Please keep in mind that there is no same-day availability for newly created users on ECMS. Usually one day after the user creation, the processing of the request will be completed and ECMS will be available for that particular user.

For the allocation of roles please note, that single roles are effective immeadiately after the restart of ECMS. Role groups or changes within the role group might take a day to be in effect.

Step 1: Navigate to the modul "Reference Data"

#### Step 2: Navigate to the screen "Create/Display Users"

Q	×		target   ECMS
🗘 Reference Data 🕕	^		
Generic Data	>		
NCB Business Parameters	>		
C ECMS Calendar	>		
Parties Reference Data	>		
Counterparties Specific Reference Data	>		
Accounts Reference Data	>		
Settlement Possibilities and Eligible Links	>		
Data	>		
🗘 Rates Reference Data	>		
C Rating Reference Data	>		
💭 Access Right Reference data	2	Data Scope	1
Credit Claim Reference Data	>	Create/Display Users	
💭 Interfaces	~	C Group	
C Statements & Messages	~	DN By User configuration	
Dilling	~	-	

Step 3: After clicking on **Create** a new window will appear, where the new user can be allocated with an "ECMS System User Reference" and a name.

Edit: Assigned User				5
ECMS System User Reference	Name	Is Active		
<u>.</u>	-	~		
User Properties	Groups	Security Role	User Multi Tenancy	
User Properties [0]	Groups [0]	Security Role [0]	User Multi Tenancy [1]	
D Reset				Save X Cancel

Please adhere to the Deutsche Bundesbank naming conventions, which are available under the following link:

Form guide and information sheet for the ECMS production environment (bundesbank.de)

#### Step 4: Creation of the data scope

Edit: Assigned User						5 2
ECMS System User Reference	Name	Is Active				
User Properties User Properties	Groups Groups (0)	Security Role Security Role [0]		User Multi Tenancy User Multi Tenancy [1]		
O Reset						Save X Cancel
List: Properties						
10 💌						Q 0 🔦
Property 🗢	🖓 User Property Value 🗢	5	💎 Update Date 🗢		💎 Updater User Id 🕈	7
No results were found for the search criteria specified						
						2 Create
Edit: Group						S 🔿
Property			User Property Value			
Data Scope			·			3 -
C Reset						× Cancel

Please enter the RIAD-code of your institute and save your input via the **S** Button

#### Step 5: Assigning of roles and groups

Edit: Assigned User				
ECMS System User Reference	Name	Is Active		
		¥		
User Properties	Groups	Security Role	User Multi Tenancy	
User Properties [0]	Groups 1	Security Role 2	User Multi Tenancy [1]	
D Reset				Save X Cancel

Via the button "Groups" the user can be allocated to an existing group with all roles that were assigned within that group.

The button "Security Role" allows to assign roles individually.

After choosing the dedicated groups and roles for the user, the input can be saved via the Sutton.

12. March 2024
Page 9

#### Step 6: Creation of the user via clicking "Save"

Edit: Assigned User				5
ECMS System User Reference	Name	Is Active		
		~		
User Properties	Groups	Security Role	User Multi Tenancy	
User Properties [0]	Groups [0]	Security Role [0]	User Multi Tenancy [1]	
D Reset				1 V Save X Cancel

In 2 eyes mode the user creation is completed after clicking "save". If the 4 eyes principle is used, then the new user is up for validation by a second user.

After creation of the user, the allocation of at least one DN (Distinguished Name) to the user is required (see page 13 f.). Without a linked DN the user cannot be used in ECMS.

## 2. Creation of an U2A/A2A-User 4 eyes principle: validate/reject

If the 4 eyes principle is being applied, a new user must be validated by a second user:

Deutsche Bundesbank 10. Juli 2024 **Seite 11** 

## 2. Creation of an U2A/A2A-User 4 eyes principle: validate/reject

After clicking on "search" all instructions waiting for validation will be listed:

Search Resul	Search Result : Reject Security User						
<u>□ *</u> □ ()							
2	ECMS System User Reference 🗢 🛛 🖓	Name 🗢 🔗	Is Active 🗢 🔗	Rejected 🗢 🔗	Action To Validate 🗢 🔗		
	DECPTY-DE50091-WENZEL-4EP	Michelle Wenzel 4 EP	Yes	No	creation		
					Reject Edit Validate 🕑 View		

After clicking on an instruction, the following buttons appear...

... View: instruction opens in view-mode so that the instruction data can be checked

- ... Validate: release/validate the instruction
- ... Reject: reject the instruction
- ... Edit: instruction opens in edit-mode. An edited instruction will be put up for validation by a second user again.

### 2. Creation of an U2A/A2A-User 2.1 Allocation of a DN to an ECMS user

To allocate an existing user in ECMS to one or multiple DNs, the screen "DN By User configuration" has to be opened.

Q	×				target
🗘 Reference Data 🚺	^				
💭 Generic Data	>				
NCB Business Parameters	>				
C ECMS Calendar	>				
Parties Reference Data	>				
Counterparties Specific Reference Data	>				
C Accounts Reference Data	>				
C Settlement Possibilities and Eligible Links	>				
Data	>				
🗯 Rates Reference Data	>				
C Rating Reference Data	>				
Access Right Reference data	2	🗘 Data Scope			
Credit Claim Reference Data	>	Create/Display Users			
C Interfaces	~	Group			
C Statements & Messages	~	DN By User configuration 3			
Dilling	~		_		

## 2. Creation of an U2A/A2A-User 2.1 Allocation of a DN to an ECMS user

Via clicking	Create 3 new wind	ow will open.			
Search : DN By User					★ ▲
	User Id 💶 🔻		 Dn =		
つ Reset					Create Q Search
Edit : DN By User					
User Id		Dn			
7				_	
D Reset					Save Save

Input the "ECMS System User Reference" of the particular user in the entry "User Id" or chose from the Dropdown menu.

Input the DN of the user under "DN".

Save your inputs to allocate the user to a DN. If 4 eyes principle is used, a validation by a second user is needed.

If the user has to be allocated to multiple DNs, the steps can be replicated as described before.

## 2. Creation of an U2A/A2A-User 2.1 Allocation of a DN to an ECMS user - 4 eyes prinicple

If the 4 eyes principle is being applied, a new user must be validated by a second user:

Deutsche Bundesbank 10. Juli 2024 **Seite 15** 

## 2. Creation of an U2A/A2A-User 2.1 Allocation of a DN to an ECMS user - 4 eyes prinicple

After clicking on "search" all instructions waiting for validation will be listed:

Delete						History Edit Sview

After a DN is deleted, the ECMS Access right will be stripped from it in CRDM.

For linking new DNs to an user - please follow the steps described on page 13/14.
